Subject:- Data Visualization With Power BI And Tableau
Practical no 6

Aim:- Designing Effective and Visually Appealing Dashboards

A] Apply Worksheet-Level and Workbook-Level Formatting

Step 1:- Connect Data in Tableau: Open Tableau Desktop. On the left blue panel under To a File, click Text File. Browse to the folder where you extracted the files, select List of Orders.csv, and click Open. Similarly open Order Details.csv

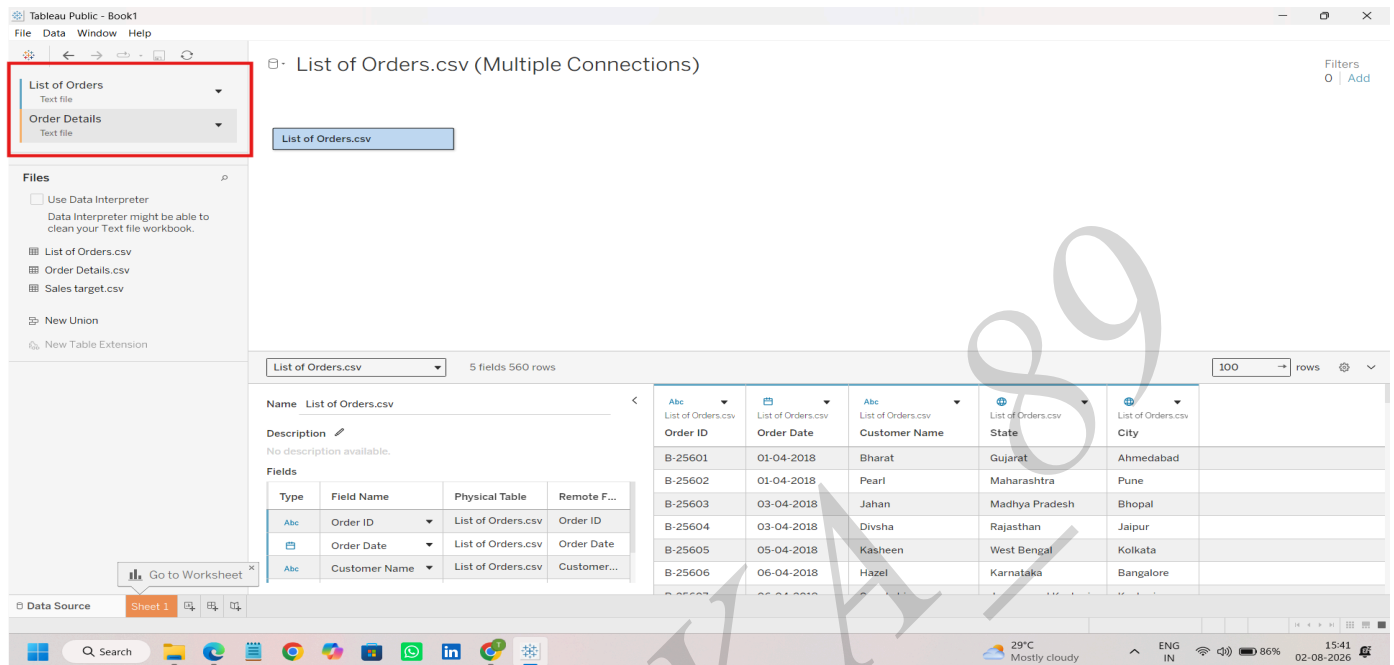

NAME : TANISHKA KUTWAL
ROLL NO: T089

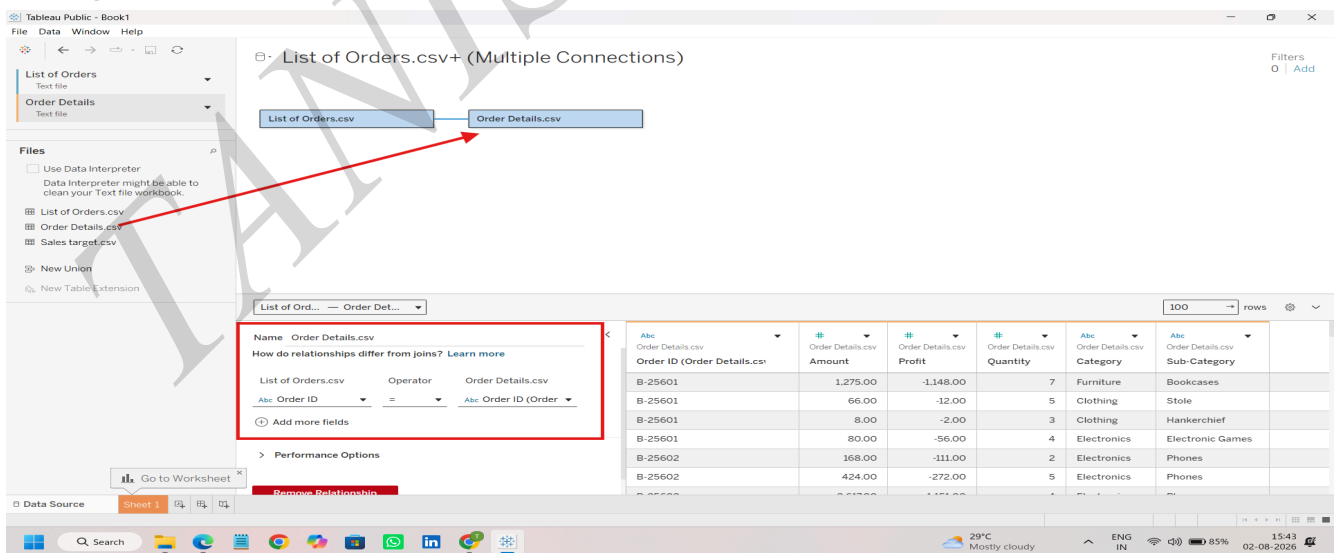

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 2:- Relate the Two Files: In the top left under Files, drag Order Details.csv into the canvas area (to the right of List of Orders.csv). A line (noodle) will connect them. If a popup asks for the relationship field, select Order ID from List of Orders on the left and Order ID from Order Details on the right

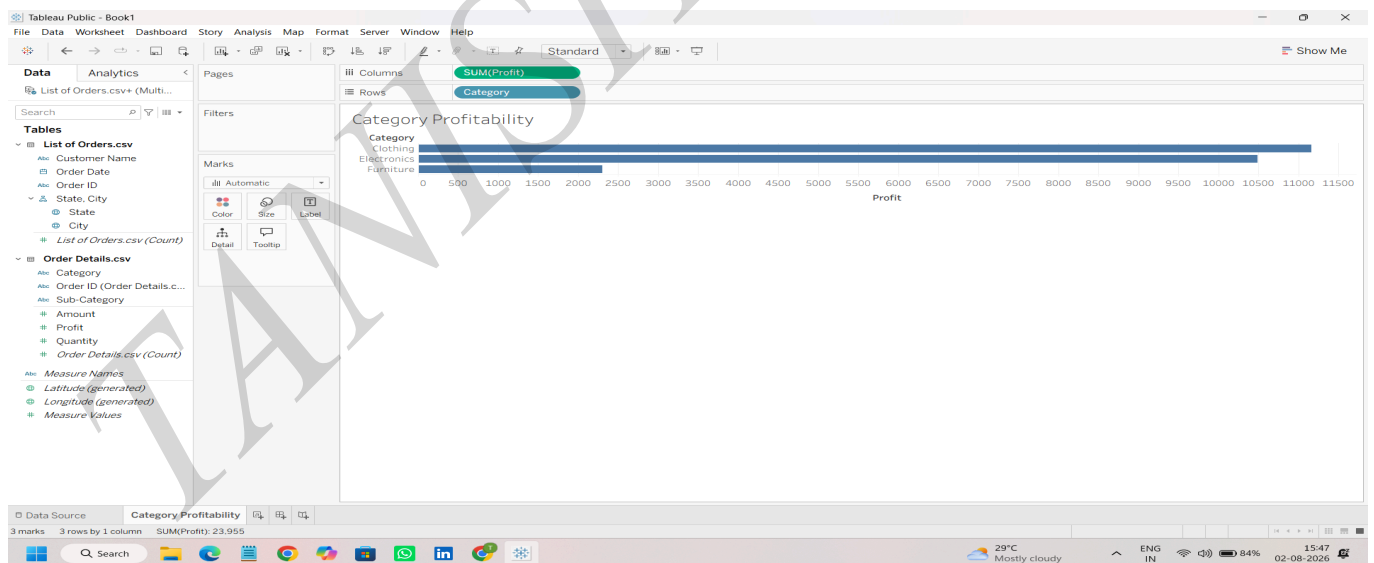

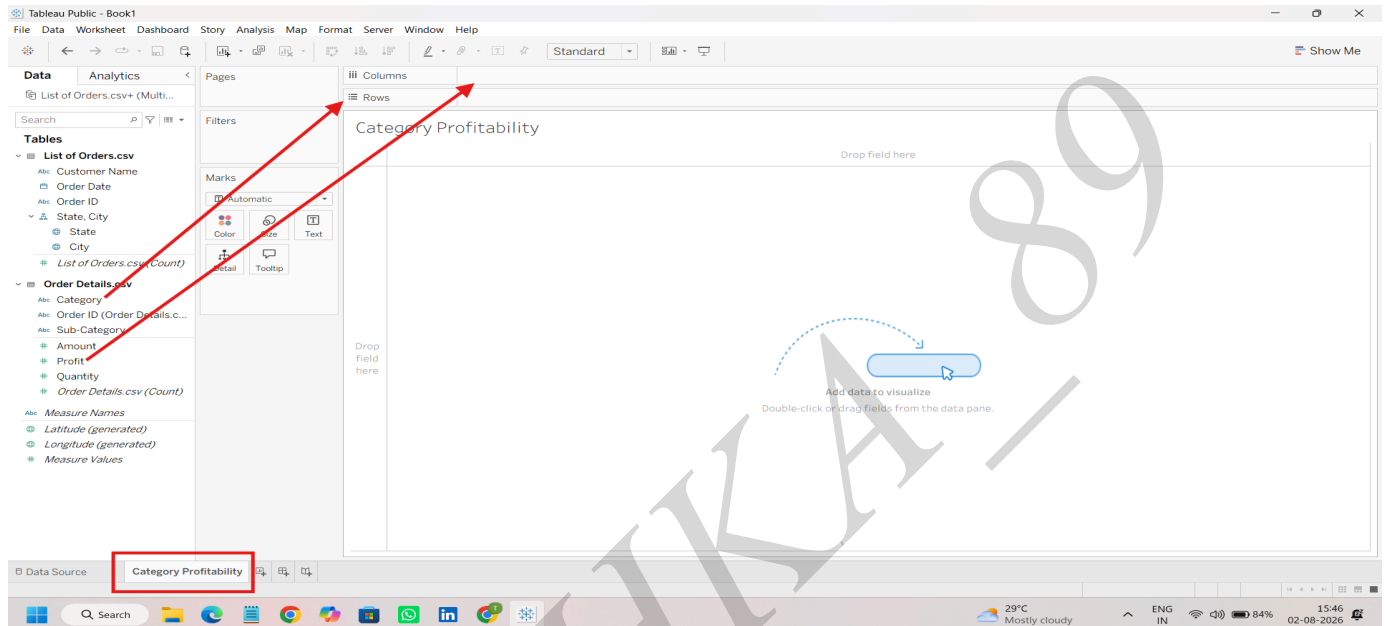

Step 3:- Create the Base Chart: At the bottom left, click on Sheet 1. Right-click the Sheet 1 tab at the bottom, select Rename, and type: Category NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau Practical no 6

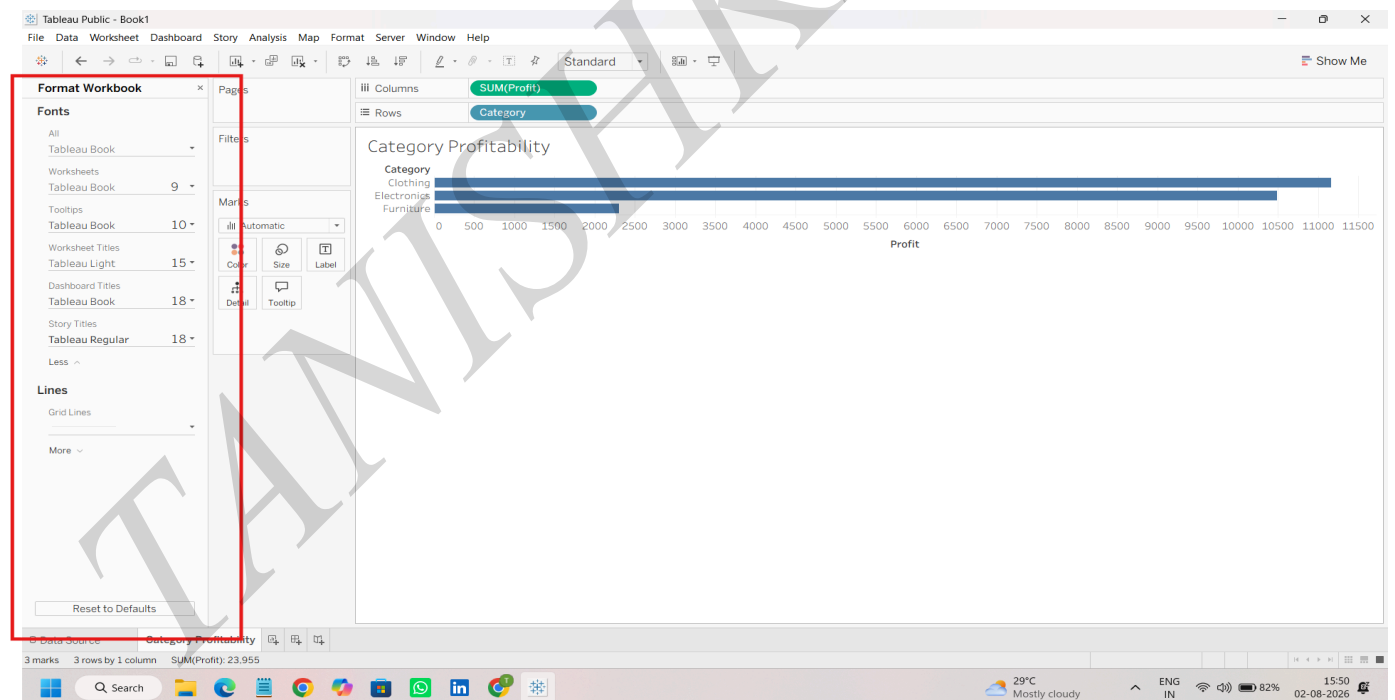

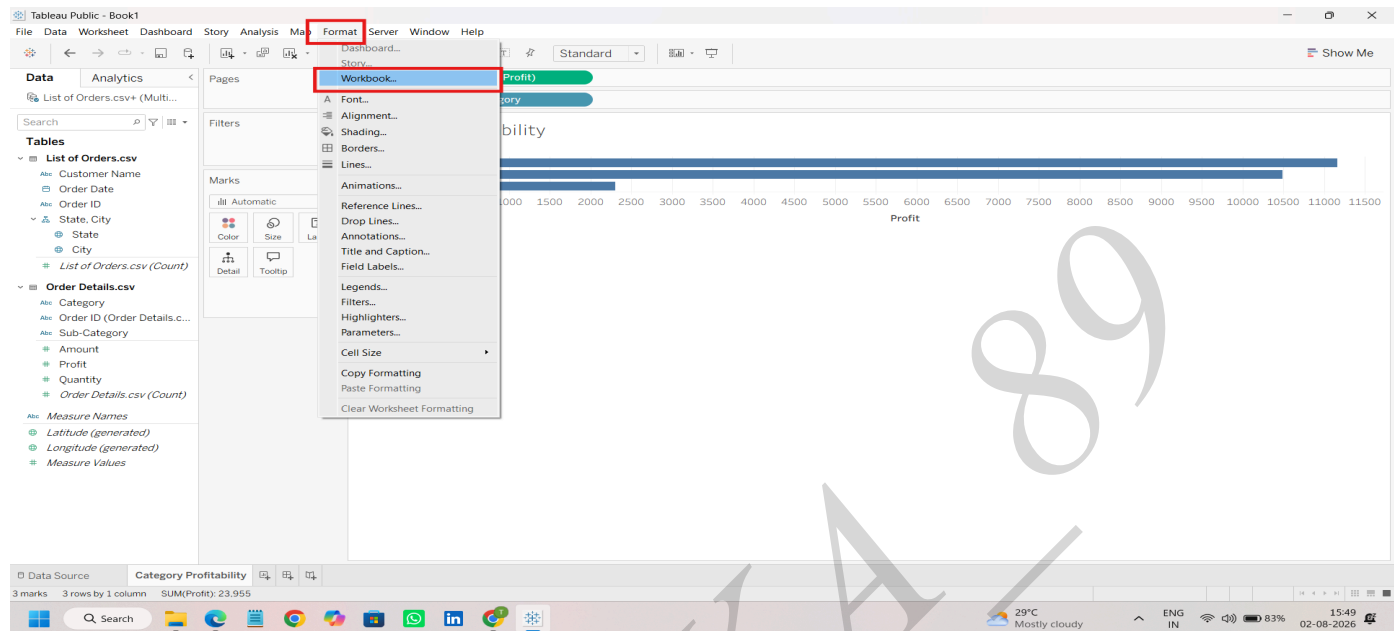

Profitability. From the Data Pane on the far left, click and drag Category onto the Rows shelf (at the top of the screen). From the Data Pane, click and drag Profit onto the Columns shelf.

Step 4:- Go to the top menu bar, click Format, then select Workbook... A Format Workbook panel will open on the left side of your screen:

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College
Subject:- Data Visualization With Power BI And Tableau
Practical no 6

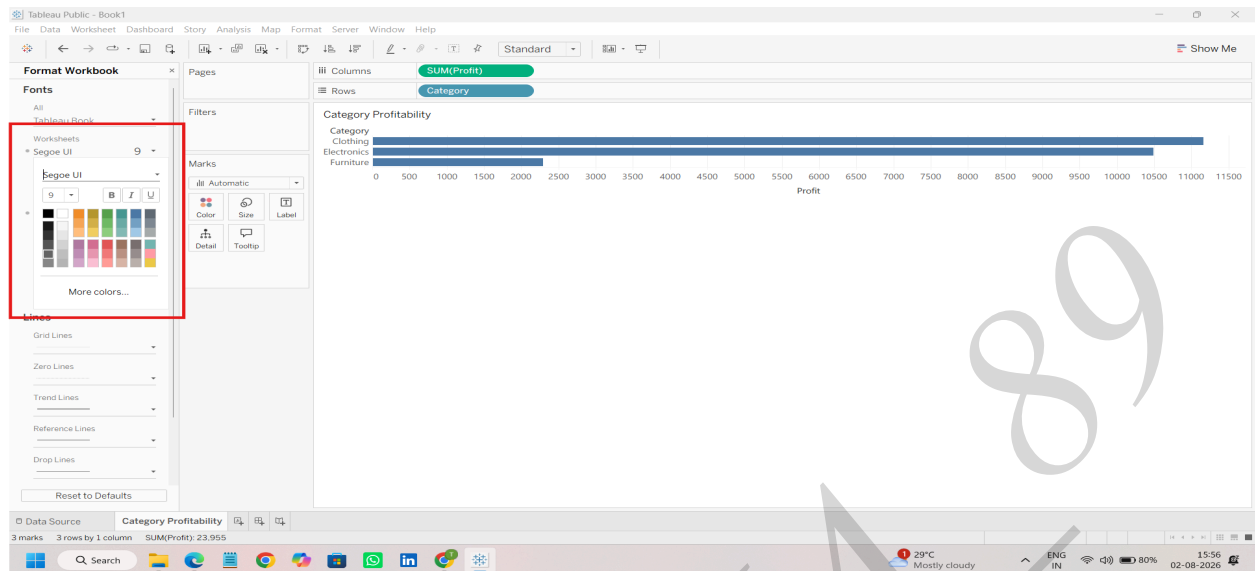

Fonts: Under Fonts, click the drop-down menu for Workbook Fonts and select Segoe UI (or Tableau Book).

NAME : TANISHKA KUTWAL
ROLL NO: T089

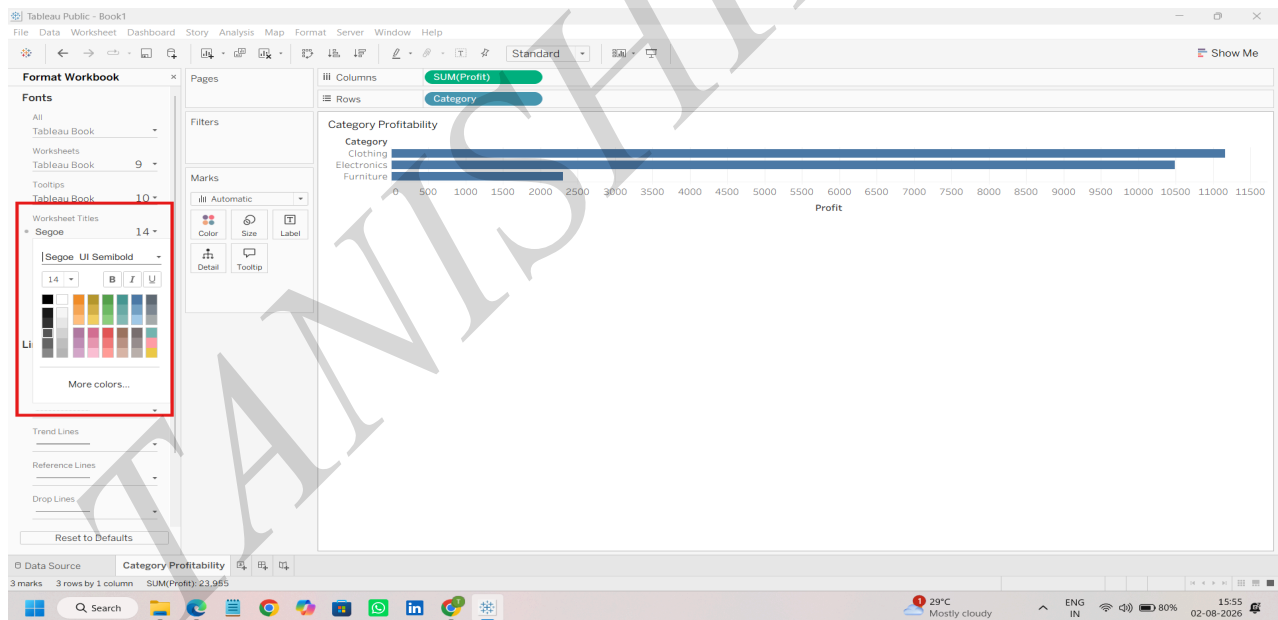

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

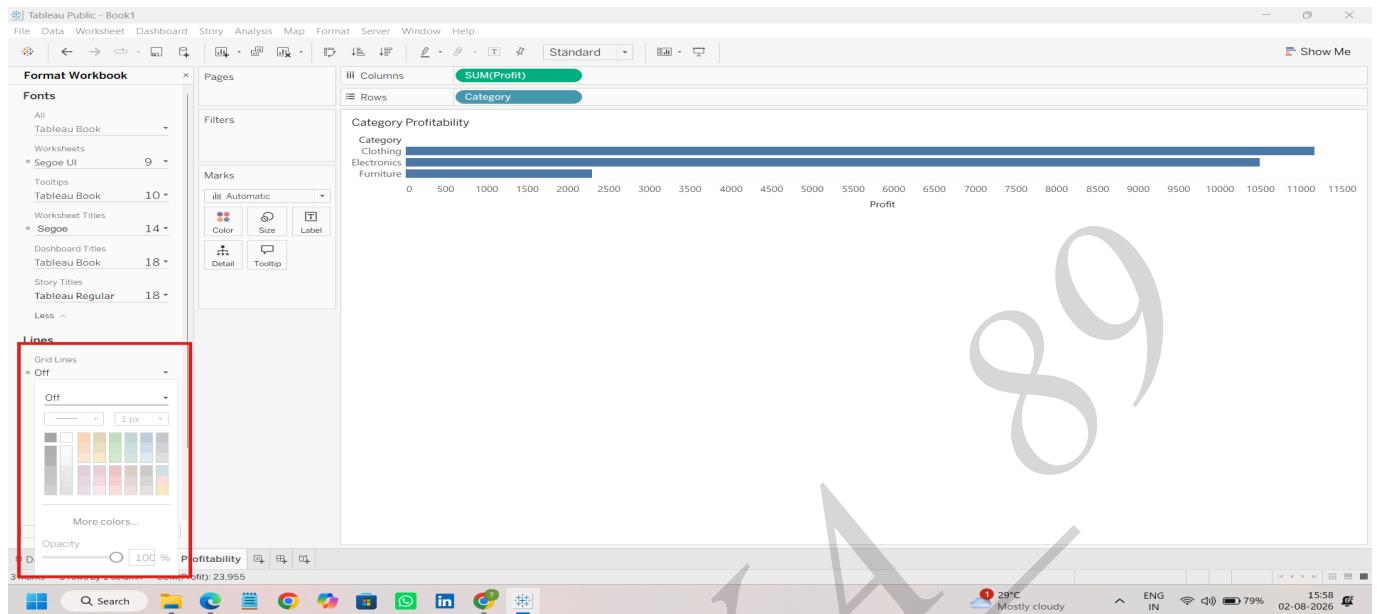

Title Font: Click the drop-down under Worksheet Titles and set the font to Segoe UI Semibold, size 14pt, and select a dark gray or navy color.

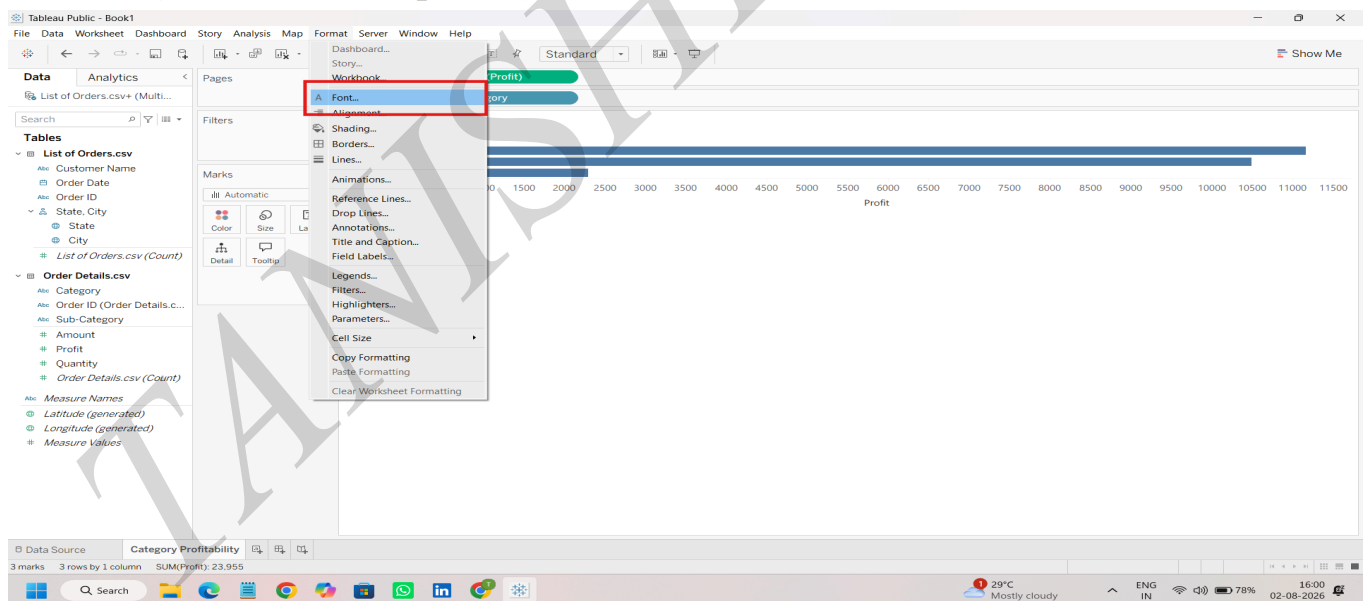

Grid Lines: Scroll down to the Lines section in the panel. Click the drop-down next to Grid Lines and select Off (or choose a light gray line).

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College
Subject:- Data Visualization With Power BI And Tableau
Practical no 6

Step 5:- Click Format in Menu Bar At the top of the Format pane, click the Font tab (it looks like a capital A)

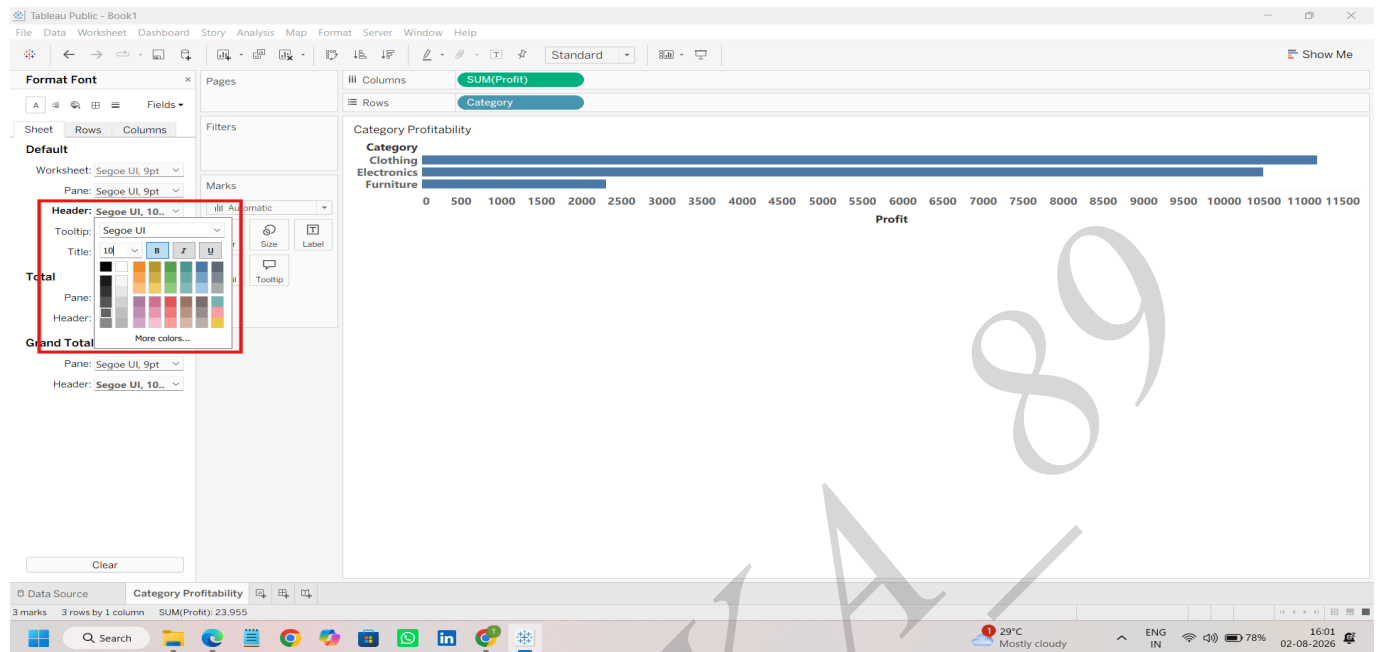

o Under Header, click the drop-down menu, set the font style to Bold, and size to 10pt.

NAME : TANISHKA KUTWAL
ROLL NO: T089

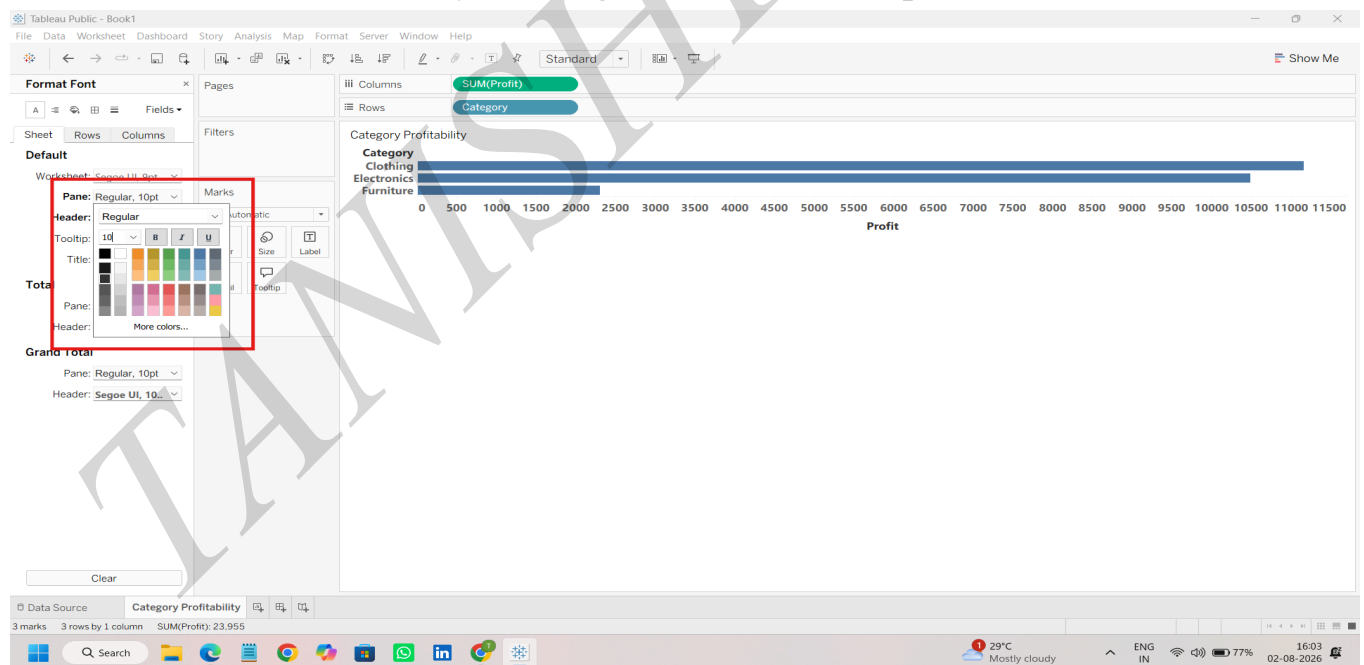

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

o Under Pane, set the font style to Regular and size to 10pt.

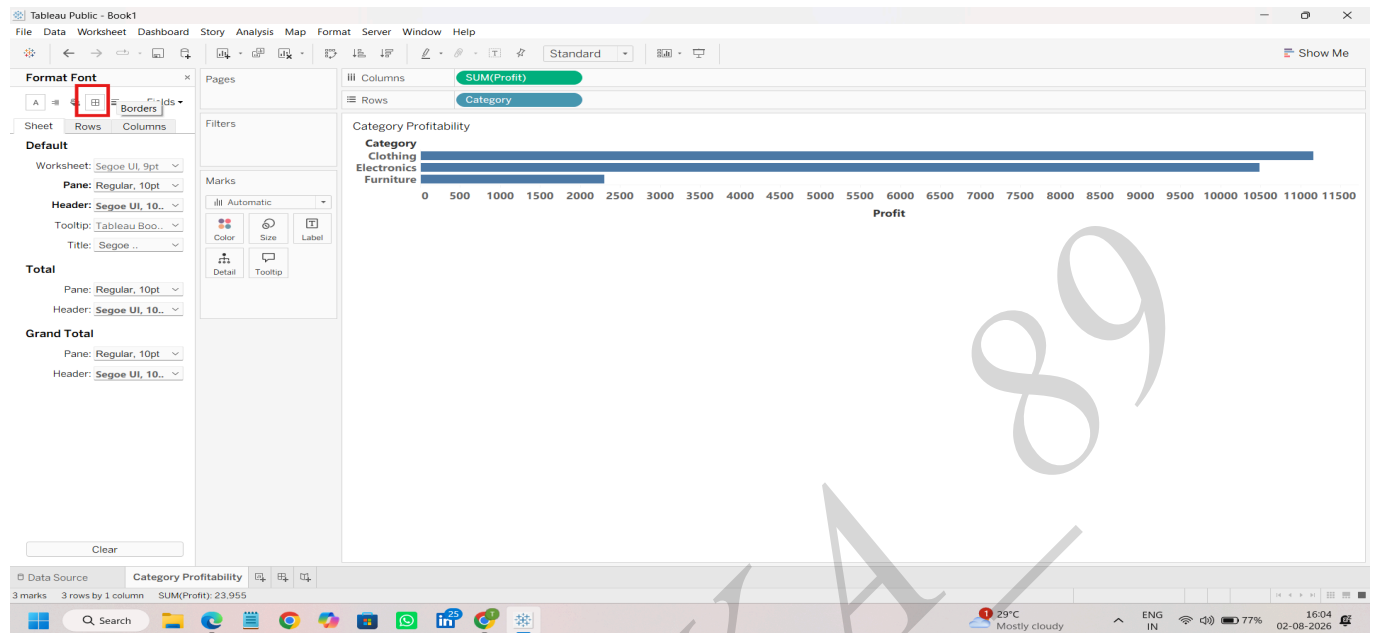

Step 6:- At the top of the Format pane, click the Borders tab (it looks like a square outline with four quadrants).

NAME : TANISHKA KUTWAL
ROLL NO: T089

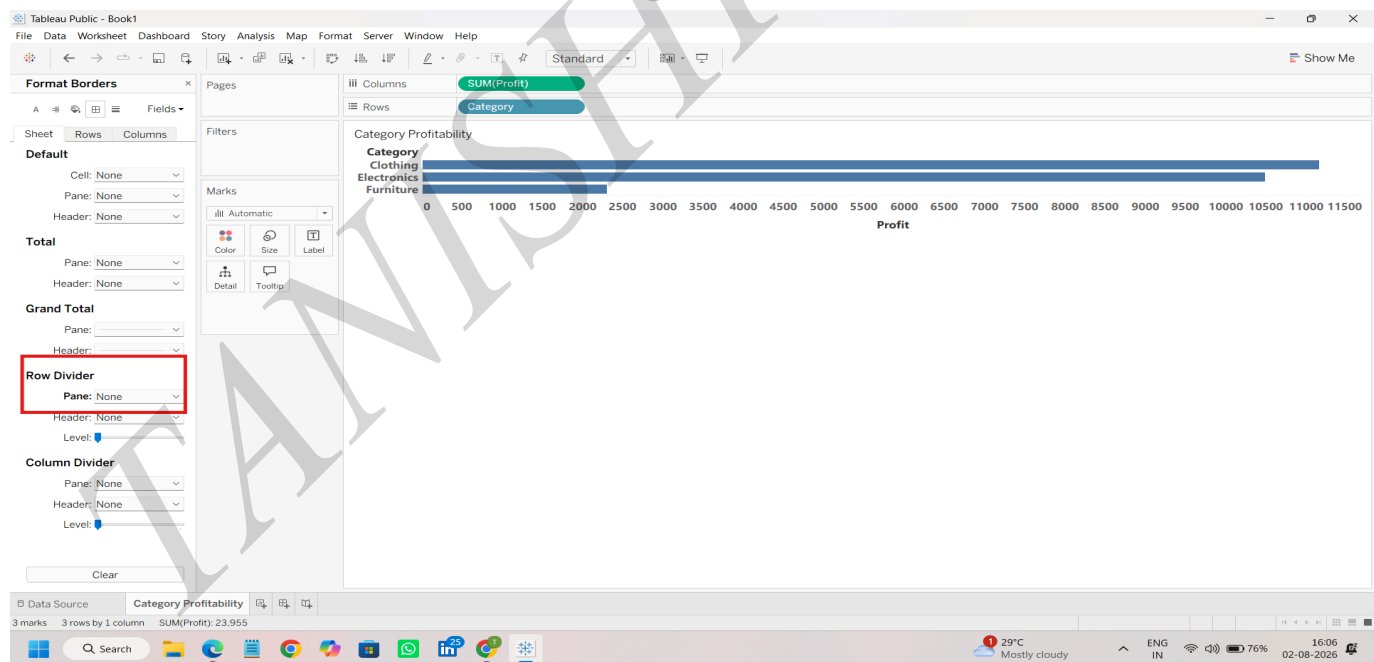

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

o Under Row Divider, click the Pane drop-down and select None

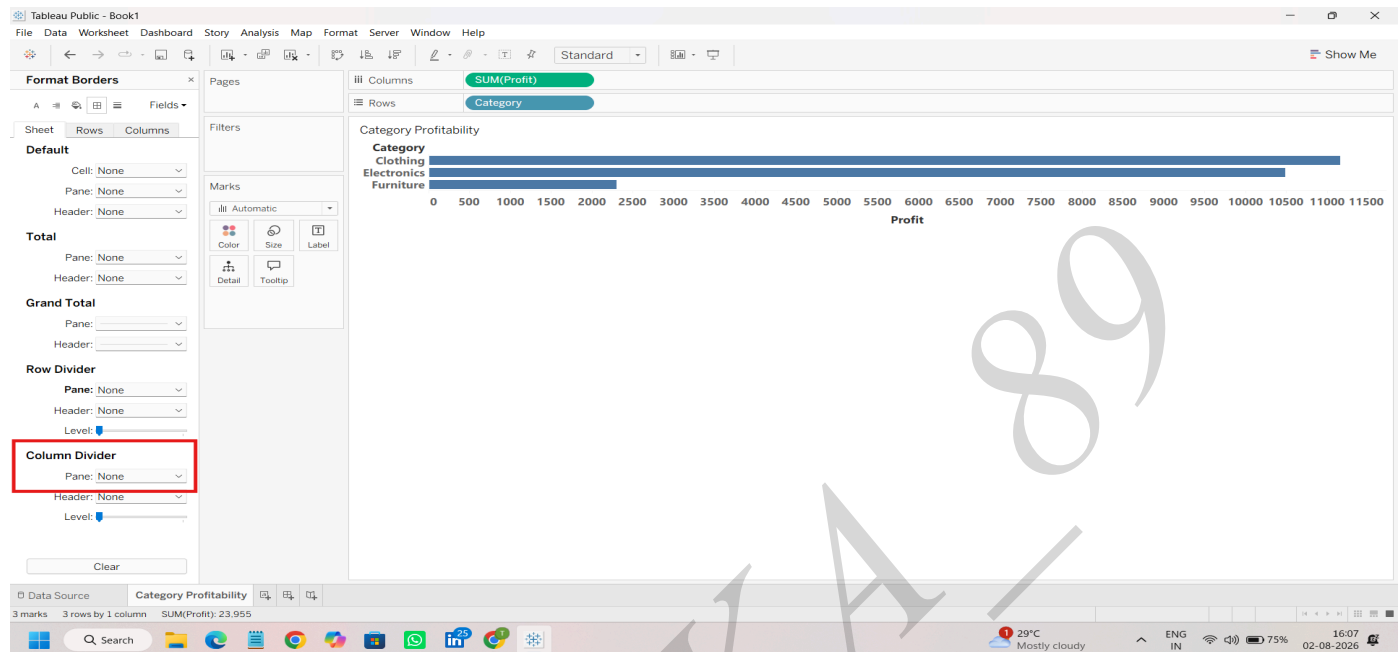

o Under Column Divider, click the Pane drop-down and select None

NAME : TANISHKA KUTWAL
ROLL NO: T089

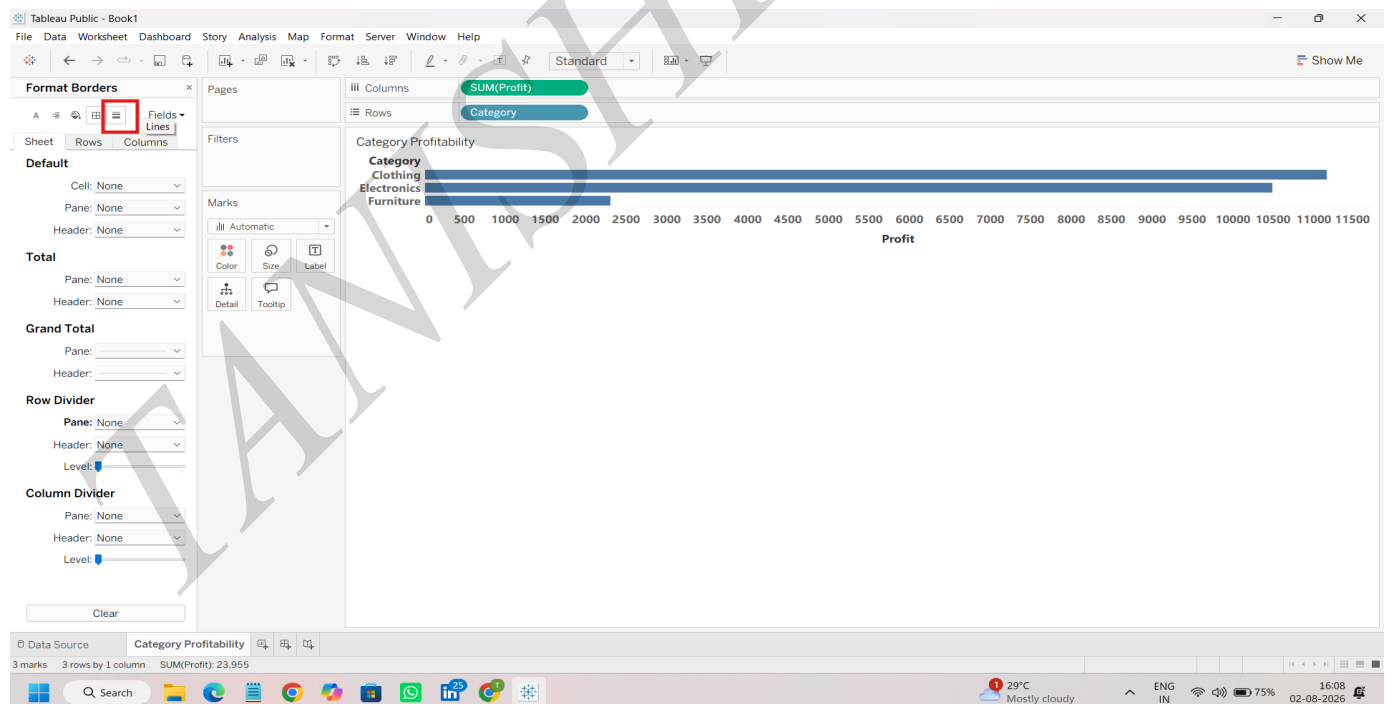

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 7:- At the top of the Format pane, click the Lines tab

Find the Zero Lines option, click its drop-down, and select a solid dark gray line

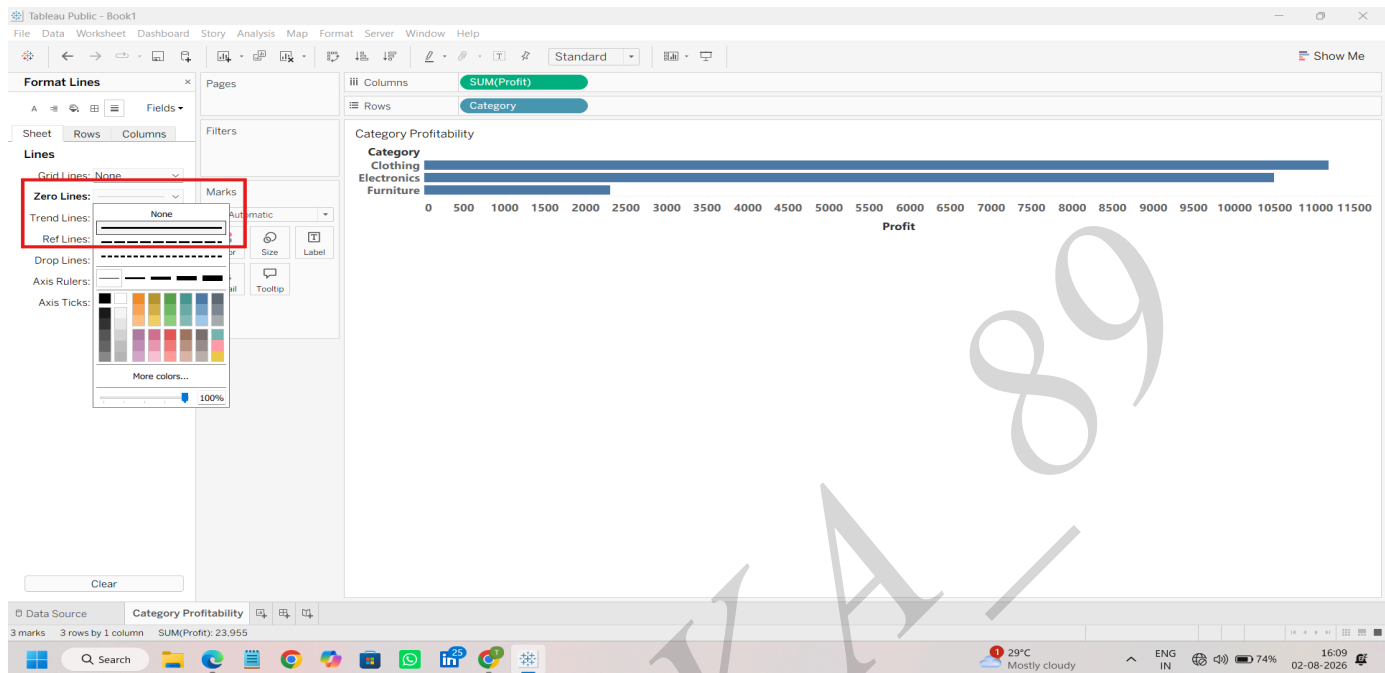

NAME : TANISHKA KUTWAL

ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

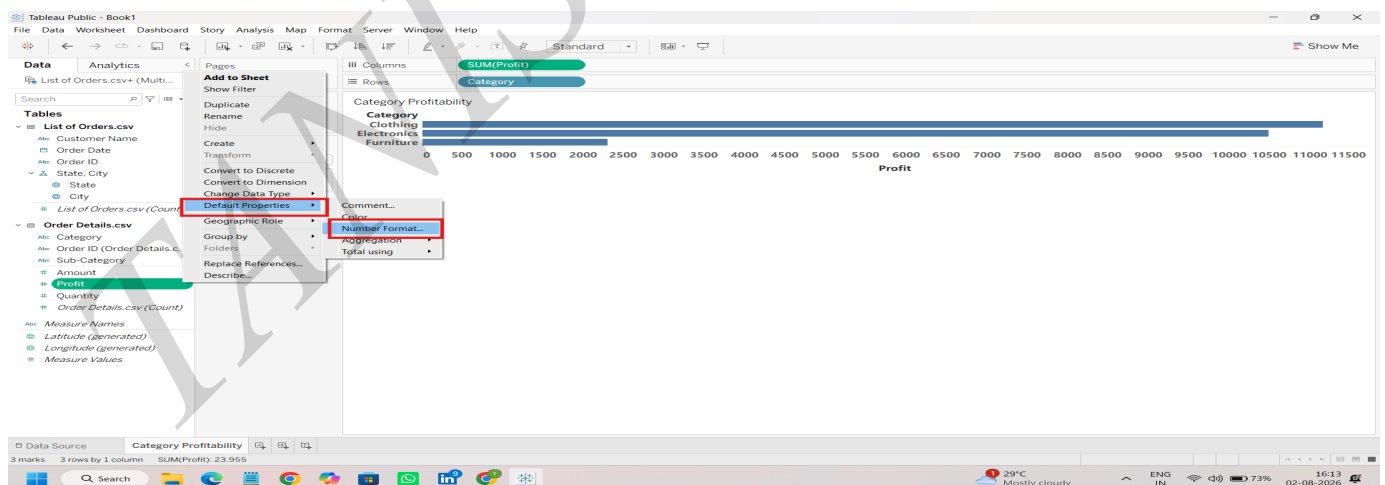

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

B] Customize Number, Date, and Null Value Formatting

Step 1:- In the Data Pane on the left side of your screen, find Profit under Order Details. Right-click Profit, hover over Default Properties, and click Number Format.

Step 2:- In the dialog box that opens: Select Currency (Custom) on the left menu. Set Decimal places to 0 (or 2 if you prefer decimals). Set Prefix/Suffix: Type ₹ into the Prefix box (or INR). Set Display Units to Thousands (K) or Thousands (K) depending on preference (or leave as None).

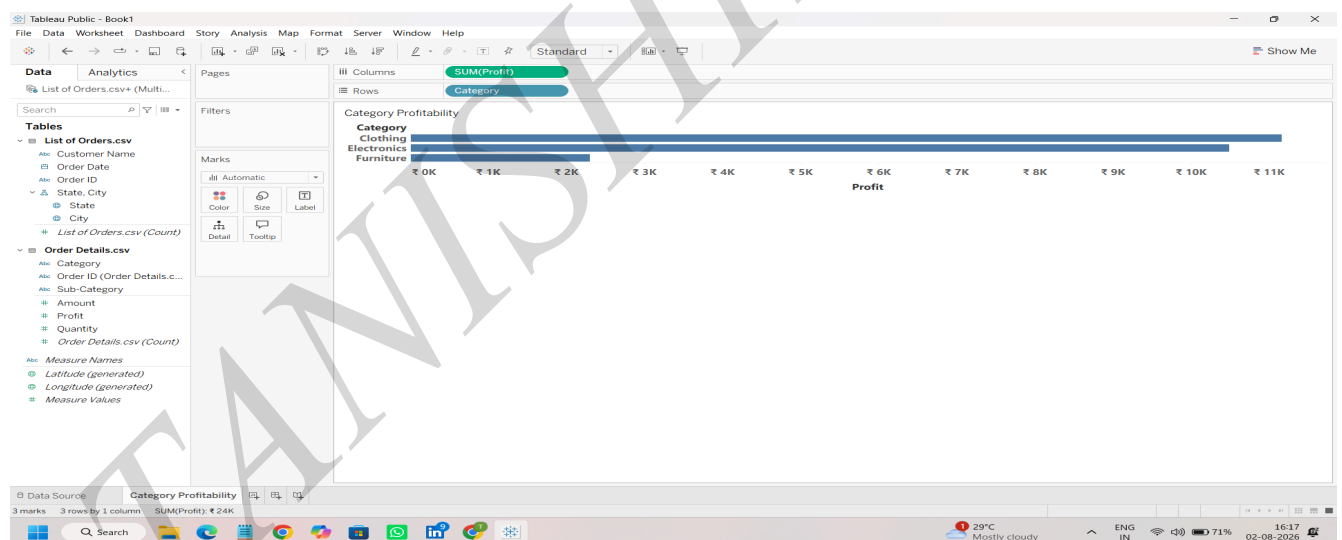

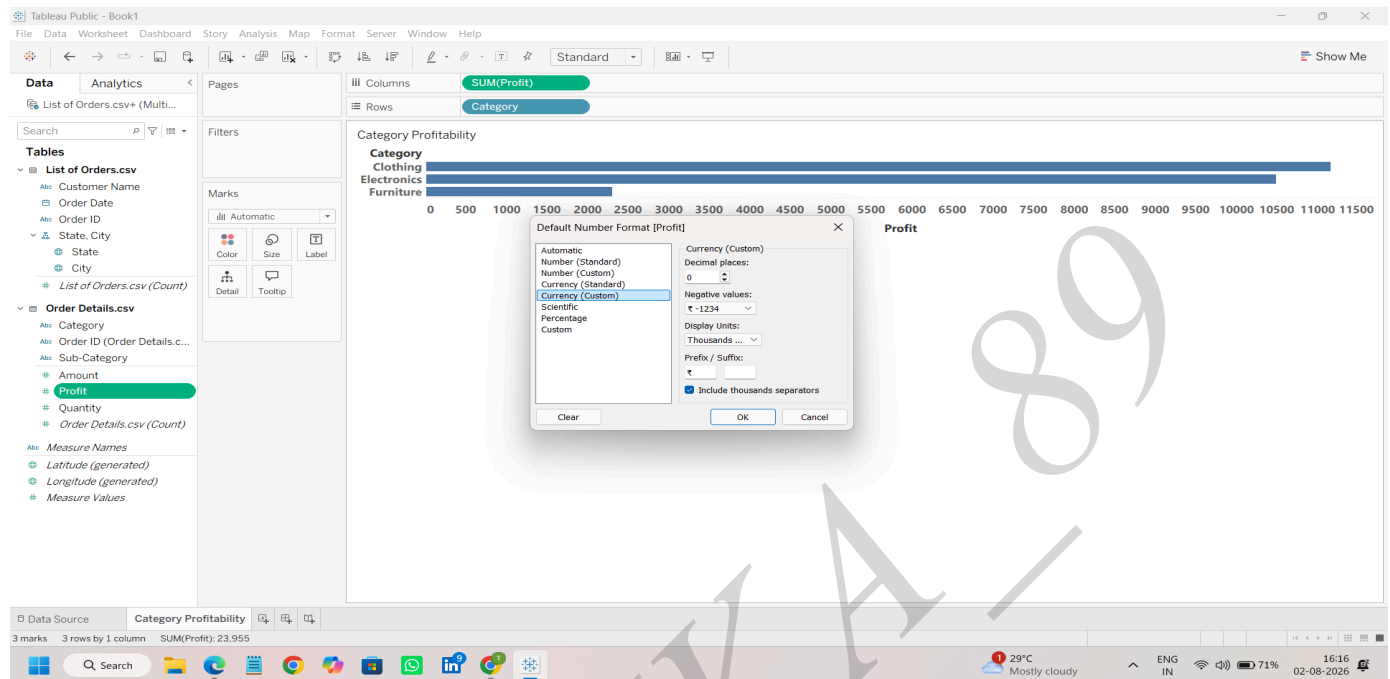

NAME : TANISHKA KUTWAL

ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

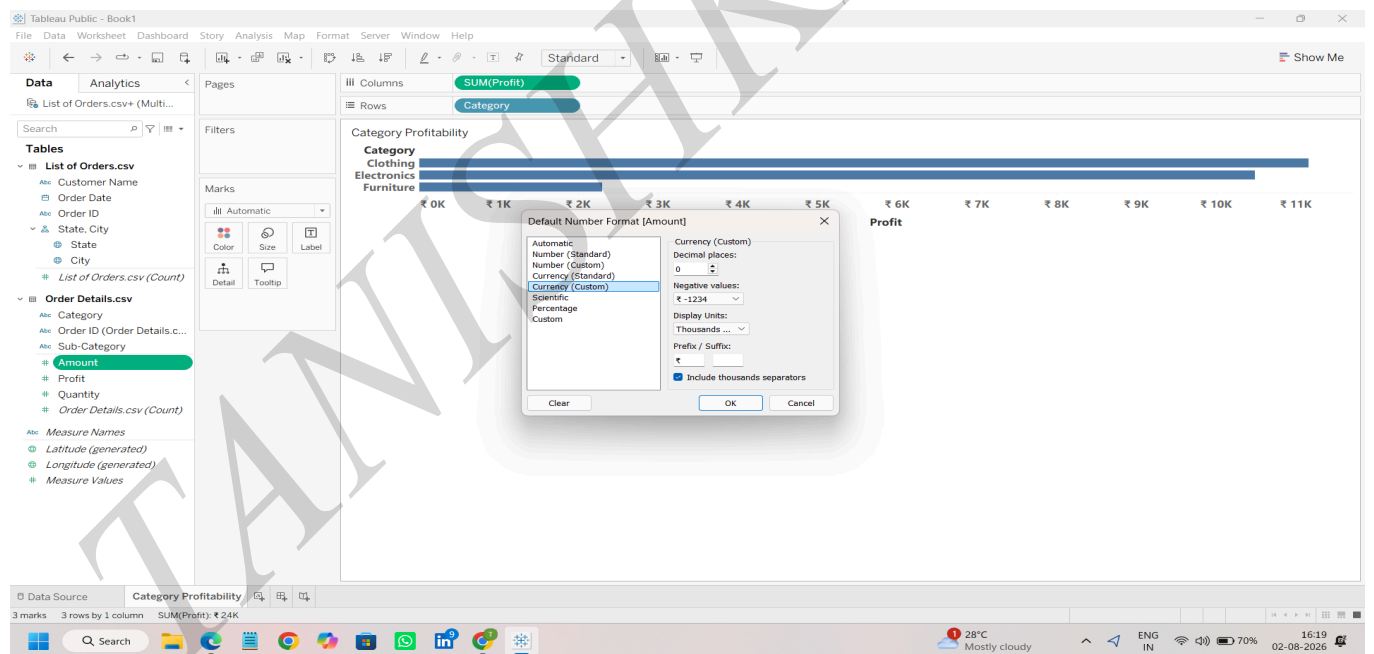

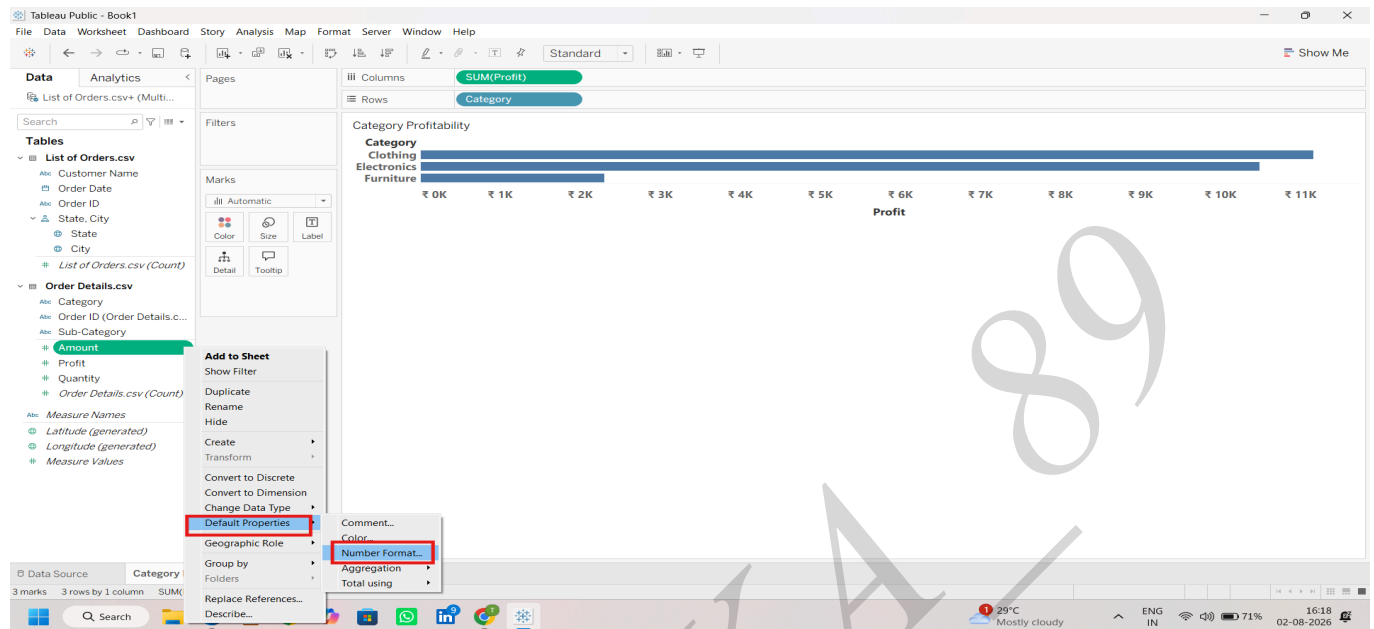

Step 3:- Repeat these steps for the Amount field: Right-click Amount Default Properties Number Format... Choose Currency (Custom), set Prefix to ₹, and click OK.

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

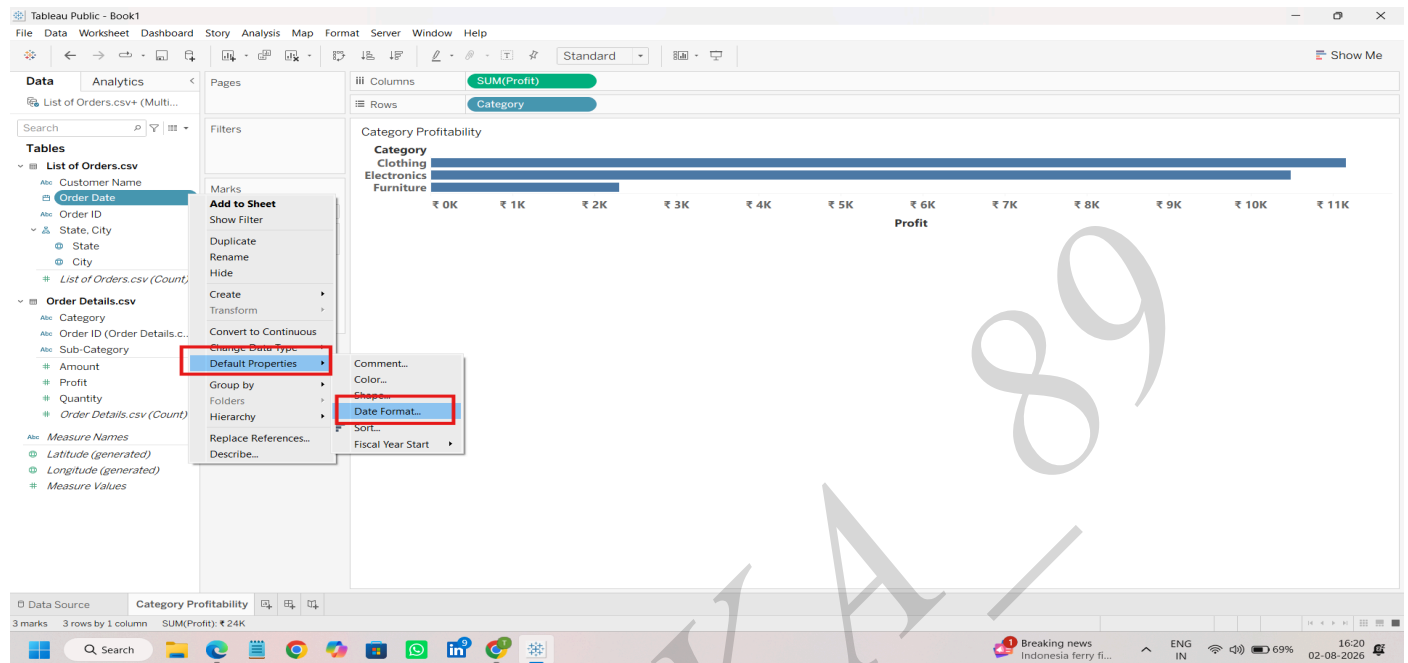

Step 4:- In the Data Pane, locate Order Date under List of Orders. Right-click Order Date, hover over Default Properties, and click Date Format...

NAME : TANISHKA KUTWAL
ROLL NO: T089

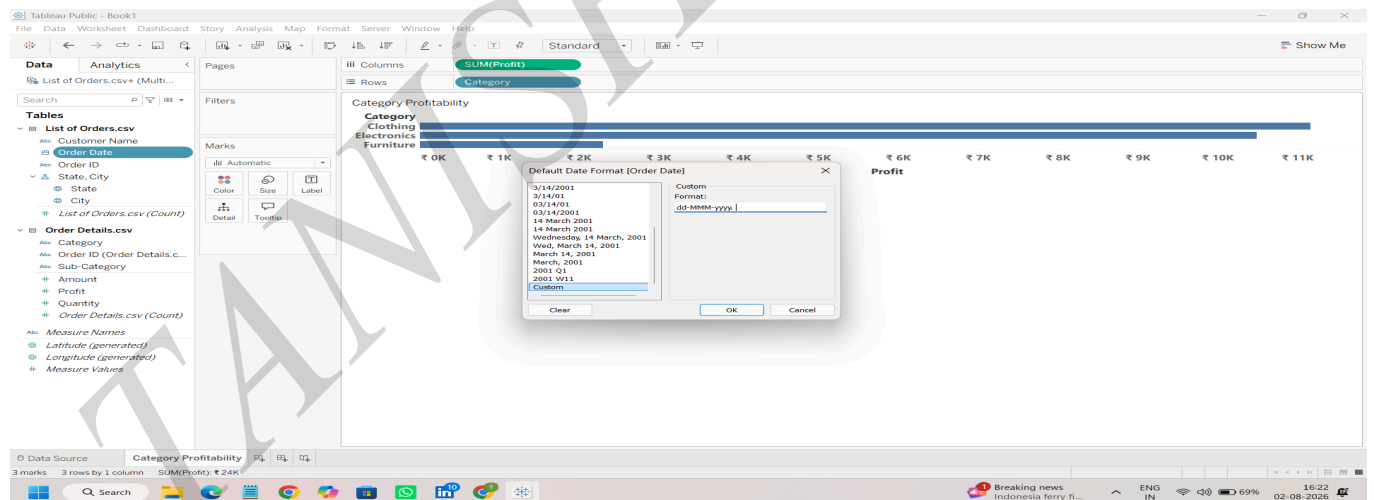

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 5:- In the menu: o Select a standard format like dd-mmm-yyyy (e.g., 14-Jan-2018) or scroll down to select Custom and type: dd-MMM-yyyy.

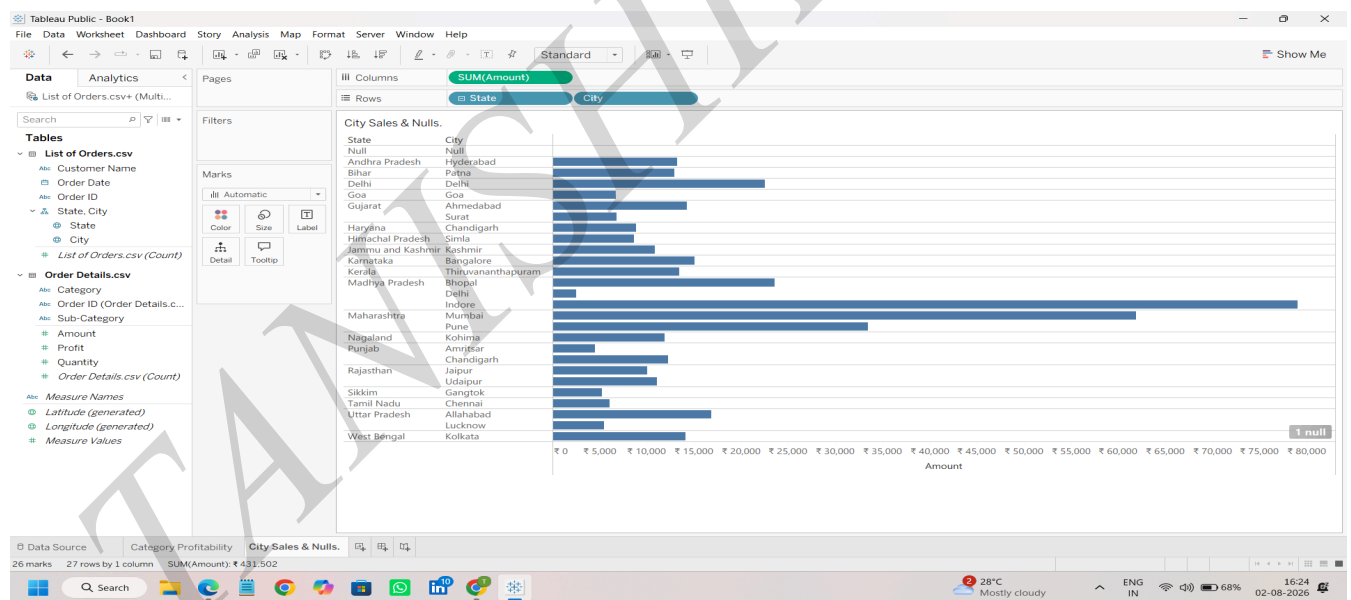

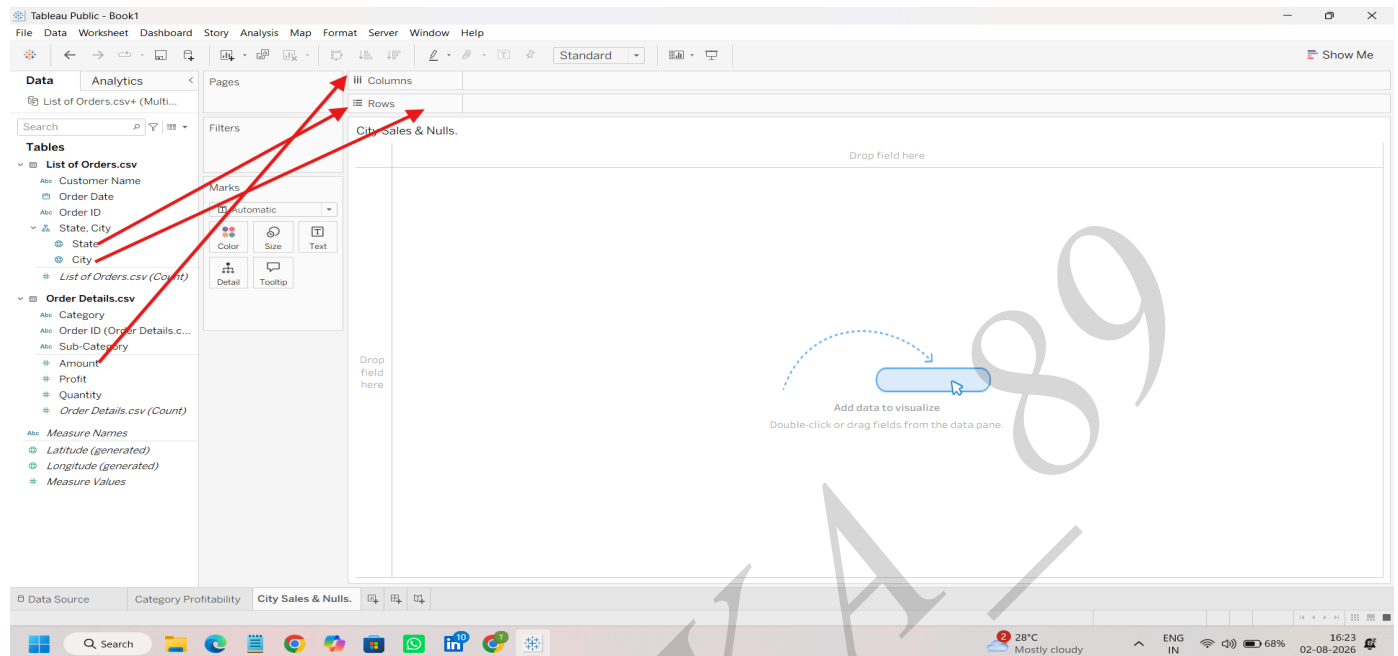

Step 6:- Create a new worksheet by clicking the New Worksheet tab at the bottom and name it: City Sales & Nulls. From the Data Pane, drag State to the Rows shelf. Drag City to the Rows shelf (placing it next to State). Drag Amount to the Columns shelf.

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

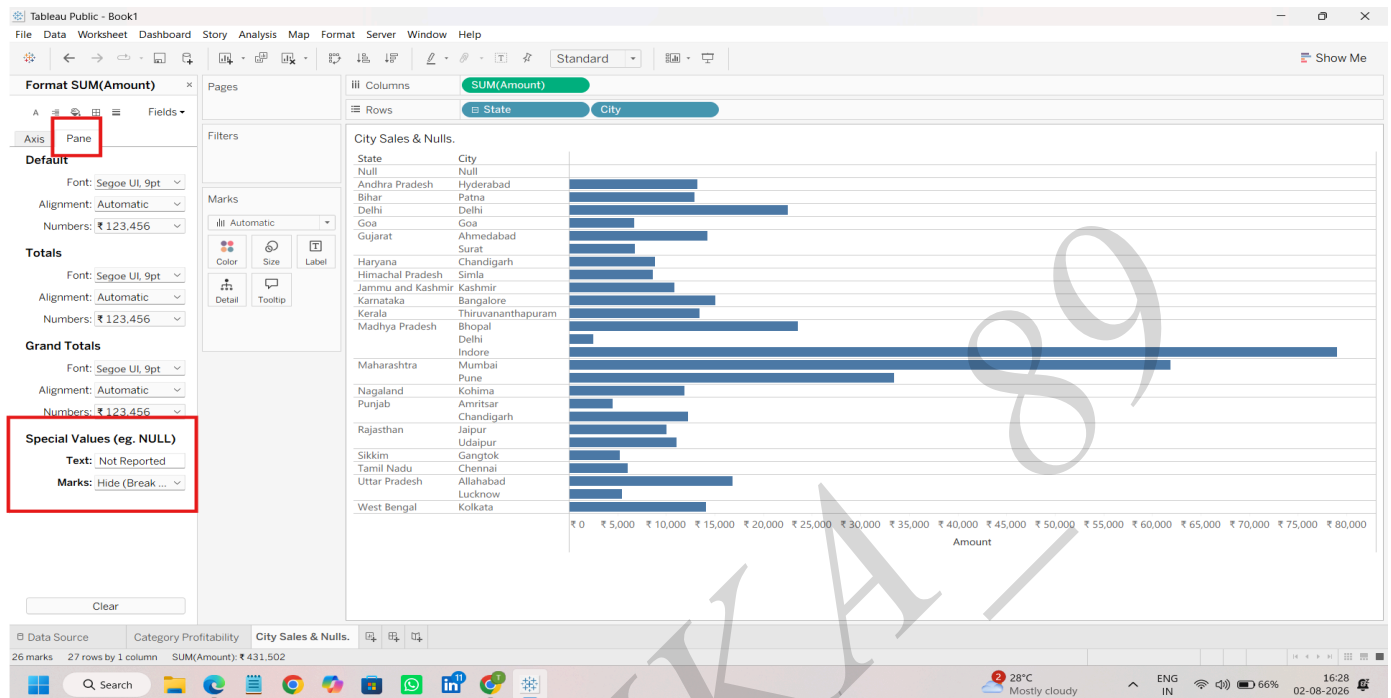

Practical no 6

Step 7:- Customize Null Text: Right-click on the SUM(Amount) pill on the Columns shelf and select Format... In the Format pane on the left, make sure you are on the Pane tab. At the very bottom of the Format pane, find the Special Values (e.g. NULL) section. In the Text box, type: Not Reported or N/A. In the Marks drop-down, you can choose Hide (Break Lines) or Show at Default Value.

Practical no 6

C| Design Effective Color Schemes and Layouts

Step 1:- Click on your Category Profitability worksheet tab at the bottom.

From the Data Pane on the left, drag Profit directly onto the Color card in the Marks card. Tableau will assign a default color gradient. To customize it: Click the Color card on the Marks card.

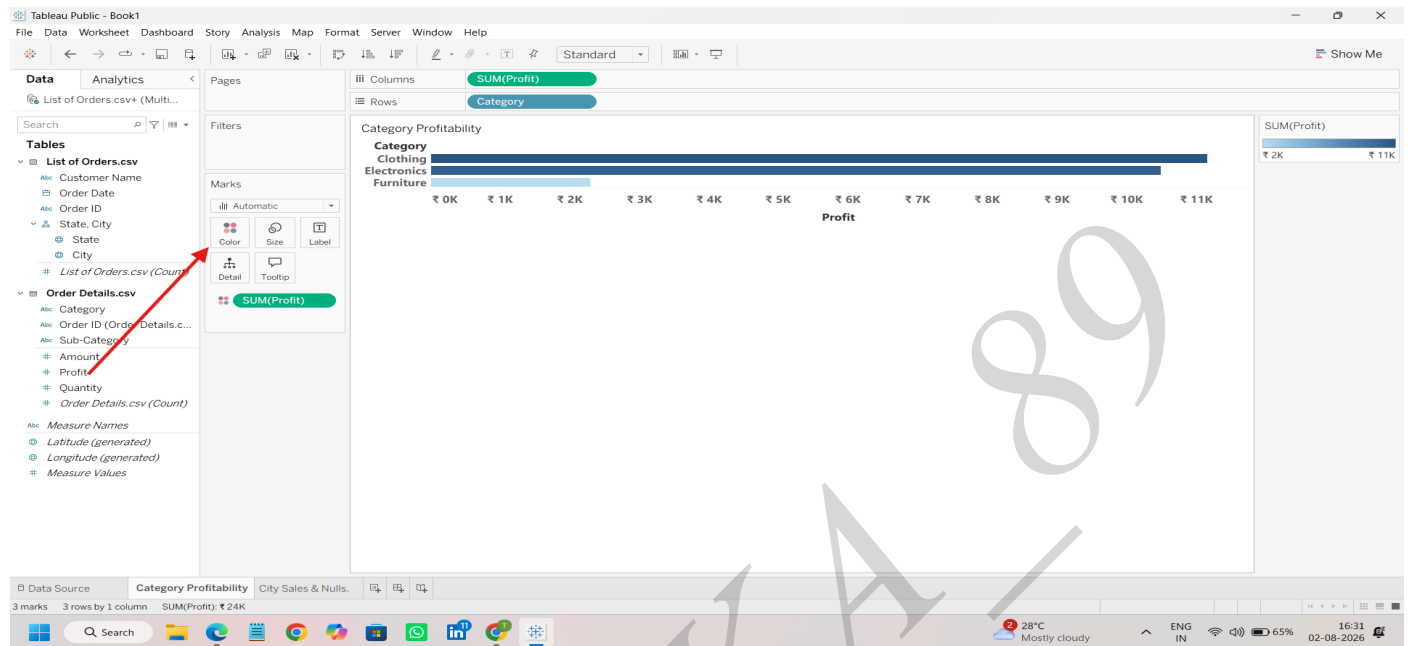

NAME : TANISHKA KUTWAL

ROLL NO: T089

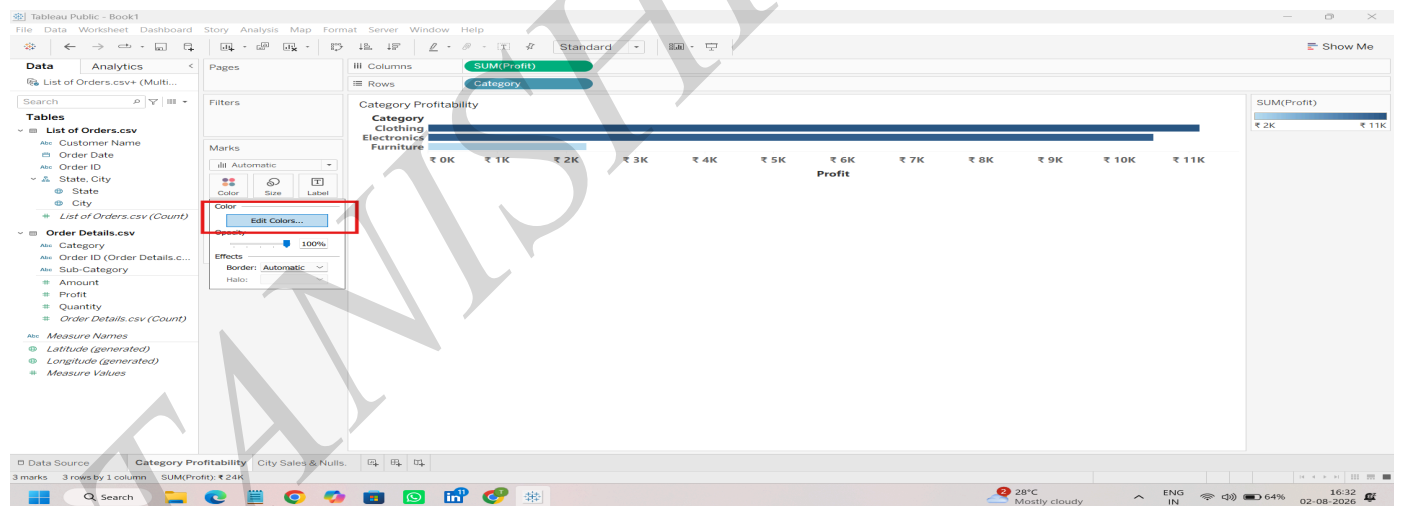

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Click Edit Colors...

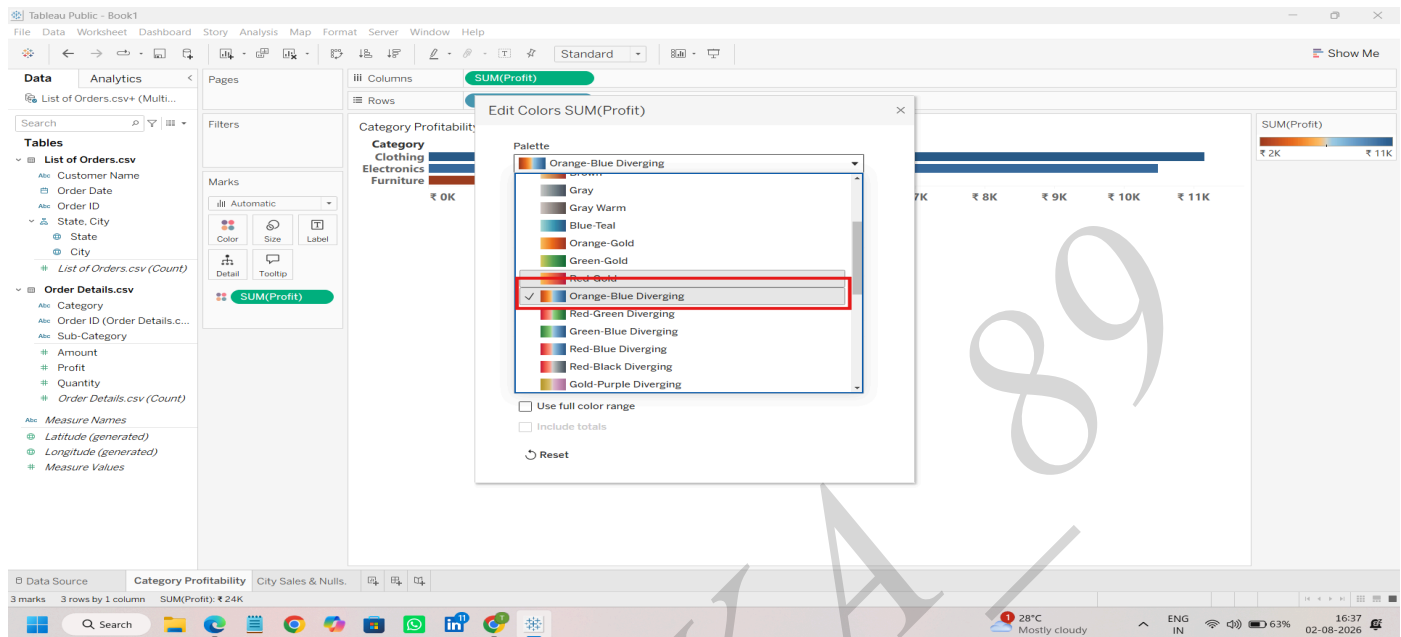

In the Edit Colors dialog box: Click the Palette drop-down menu and select Orange-Blue Diverging (or Red Green Diverging).

NAME : TANISHKA KUTWAL
ROLL NO: T089

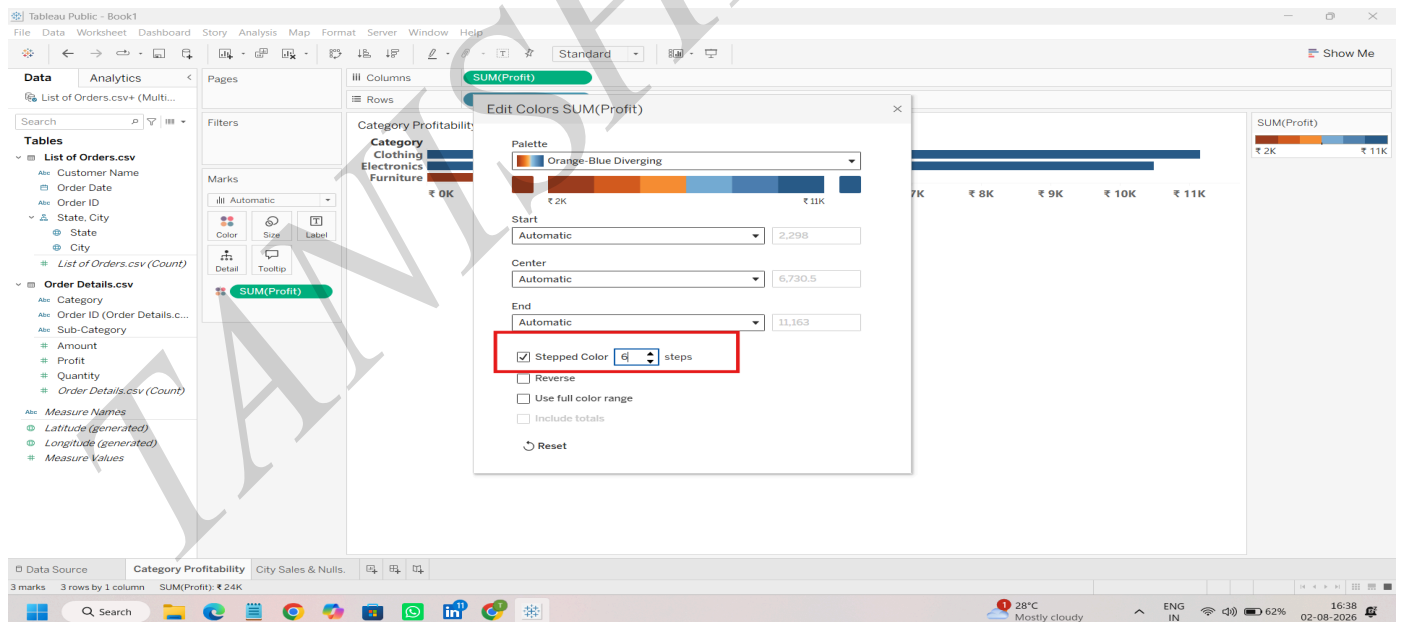

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Check the box for Stepped Color and set the number of steps to 4 or 6 (this creates clear, distinct color bands).

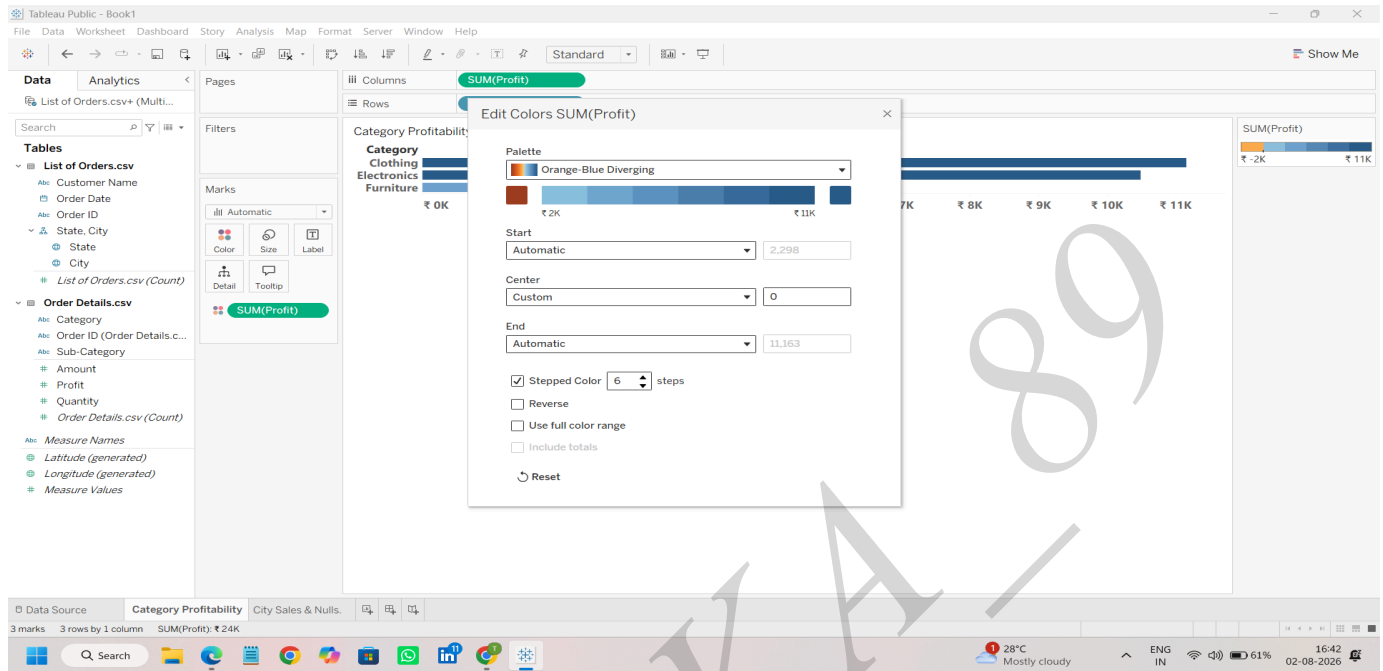

o Click Advanced >> to expand additional settings (The Additional settings may show even if you don't click advanced). Check the Center box and ensure the value is set to 0.

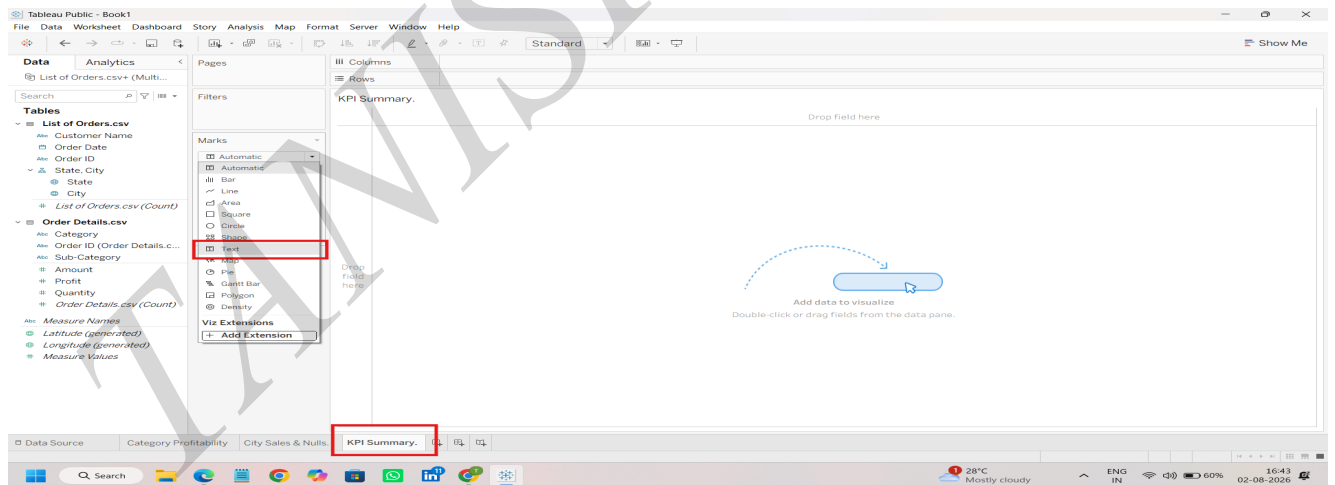

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau
Practical no 6

Step 2:- Click the New Worksheet icon at the bottom and name it: KPI Summary. Change the Mark type in the Marks card drop-down from Automatic to Text.

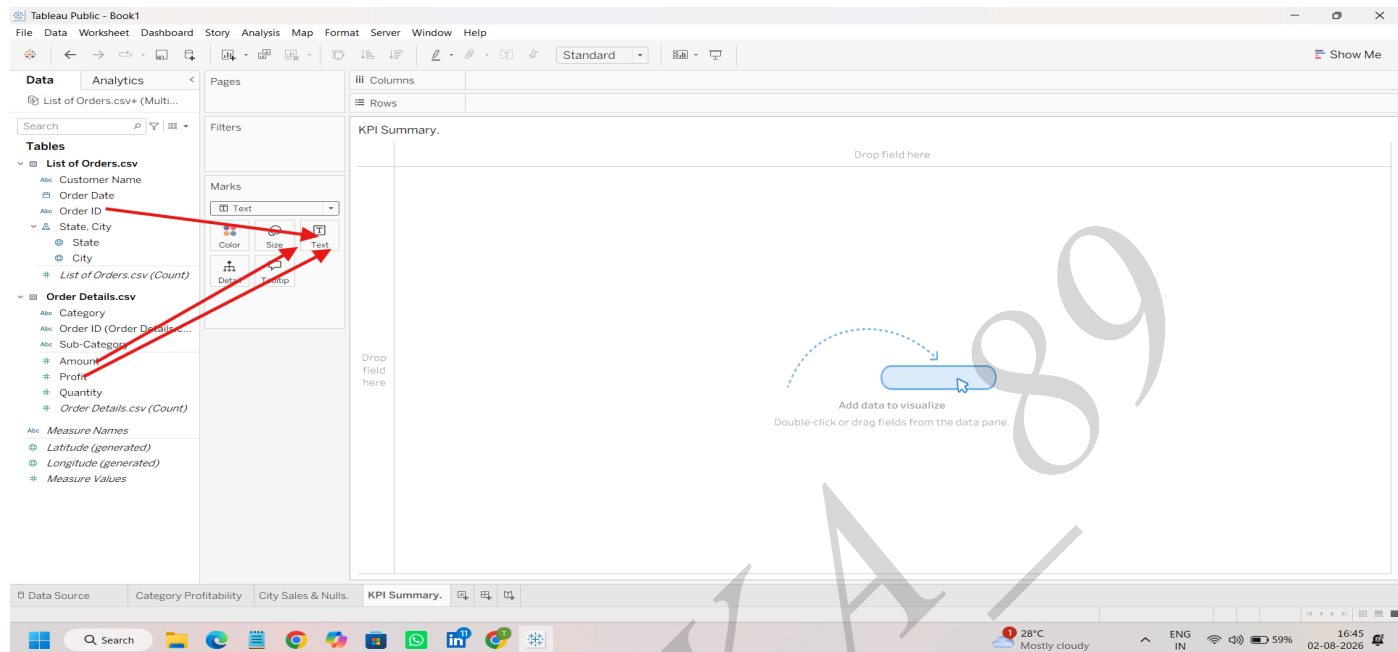

Drag Amount onto the Text card (it will display as SUM(Amount)). Drag Profit onto the Text card (it will display as SUM(Profit)). Drag Order ID onto the Text card.

D] : Create Informative Tooltips

Step 1:- Click on your **Category Profitability** worksheet tab at the bottom.

2. On the Marks card (to the left of the chart), click the **Tooltip** card.

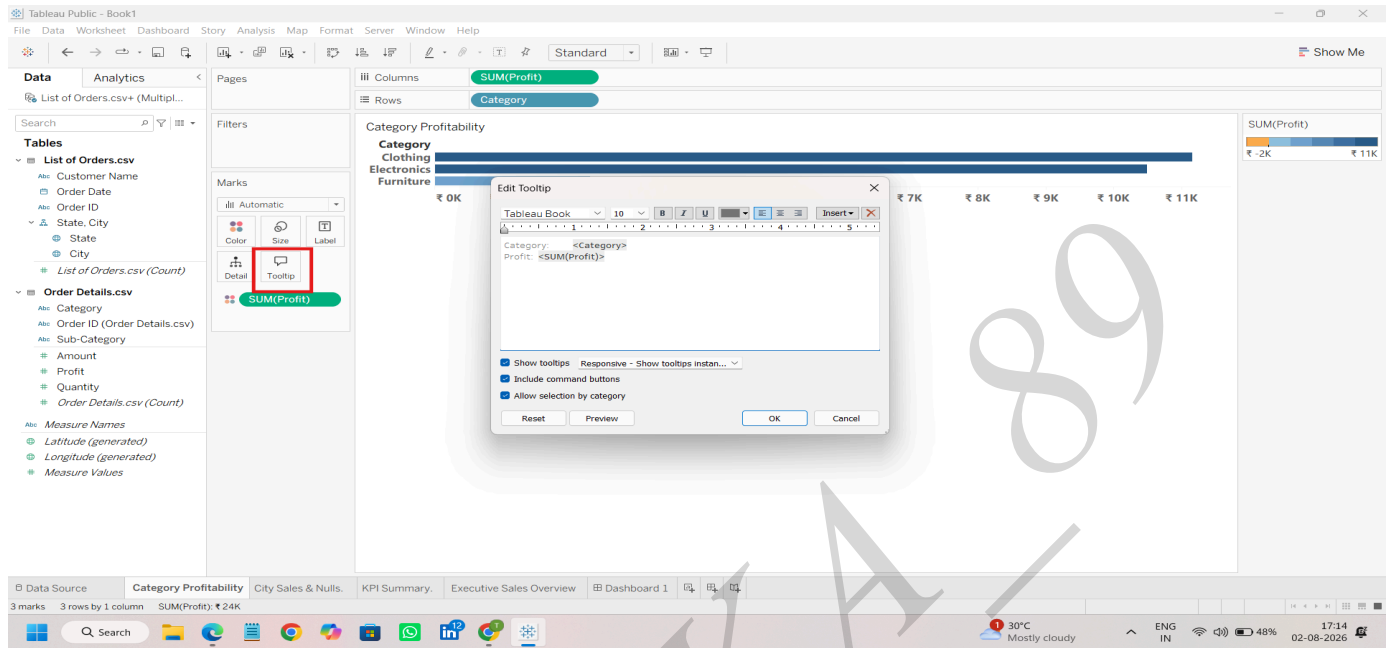

3. The **Edit Tooltip** dialog box will open showing the default Tableau code:

Category: <Category> **Profit:** <Profit>

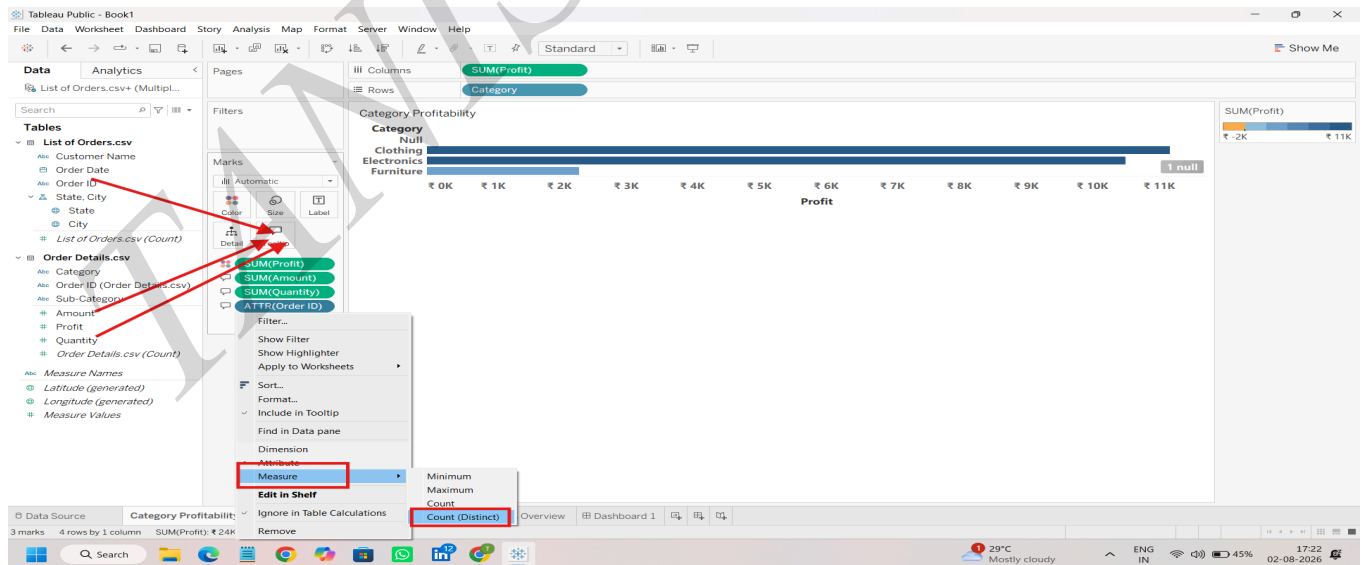

NAME : TANISHKA KUTWAL

ROLL NO: T089

Sheth L.U.J. And Sir M.V. College
Subject:- Data Visualization With Power BI And Tableau
Practical no 6

Step 2:- Click Cancel to temporarily close the Edit Tooltip window. From the Data Pane, drag Amount onto the Tooltip card on the Marks card. Drag Quantity onto the Tooltip card on the Marks card. Drag Order ID onto the Tooltip card, then click its drop-down arrow Measure Count (Distinct) so it displays as CNTD(Order ID).

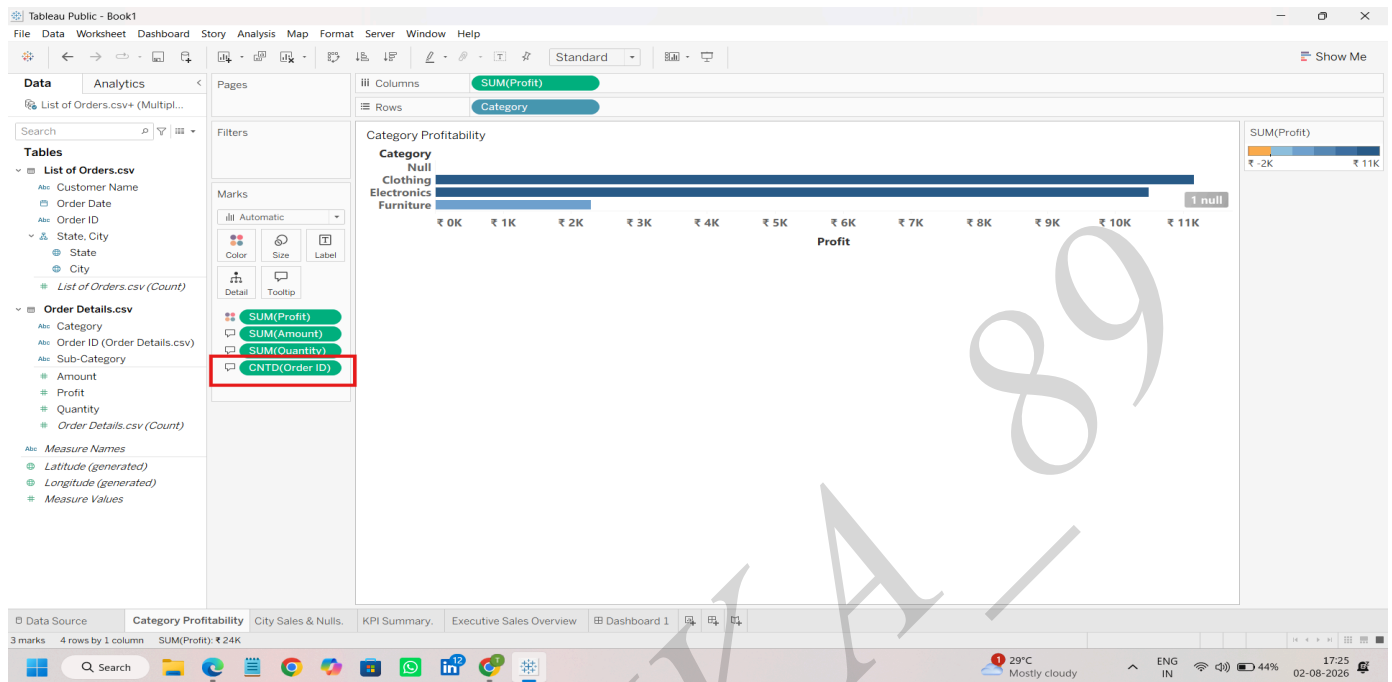

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

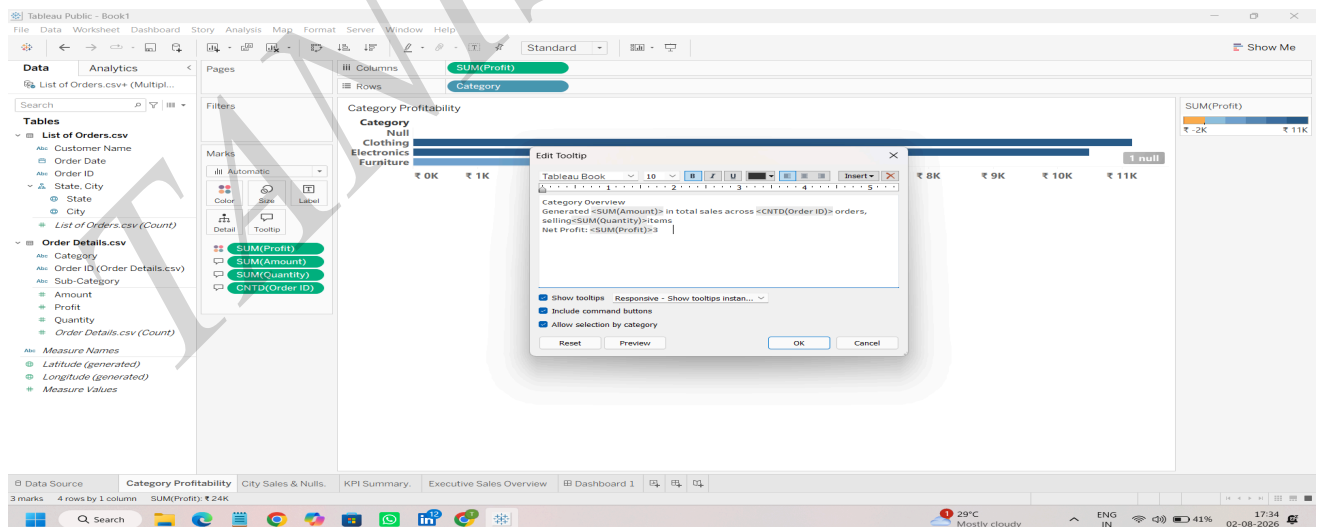

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 3:- Click the Tooltip card on the Marks card again to open the Edit Tooltip window. Delete all existing text inside the box. Re-type or paste the following clean, conversational text:

Category Overview Generated in total sales across orders, selling items. Net Profit:

**Uncheck "Include command buttons" Check "Show tooltips: On hover".
Then Click OK**

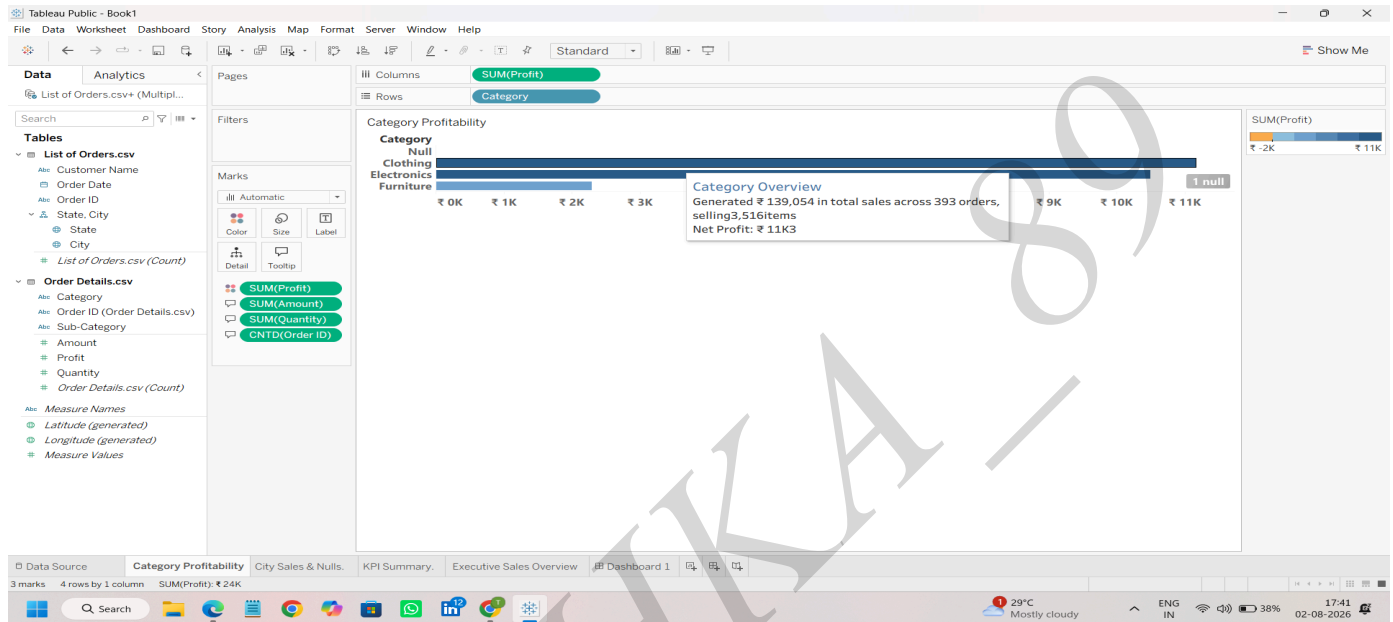

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

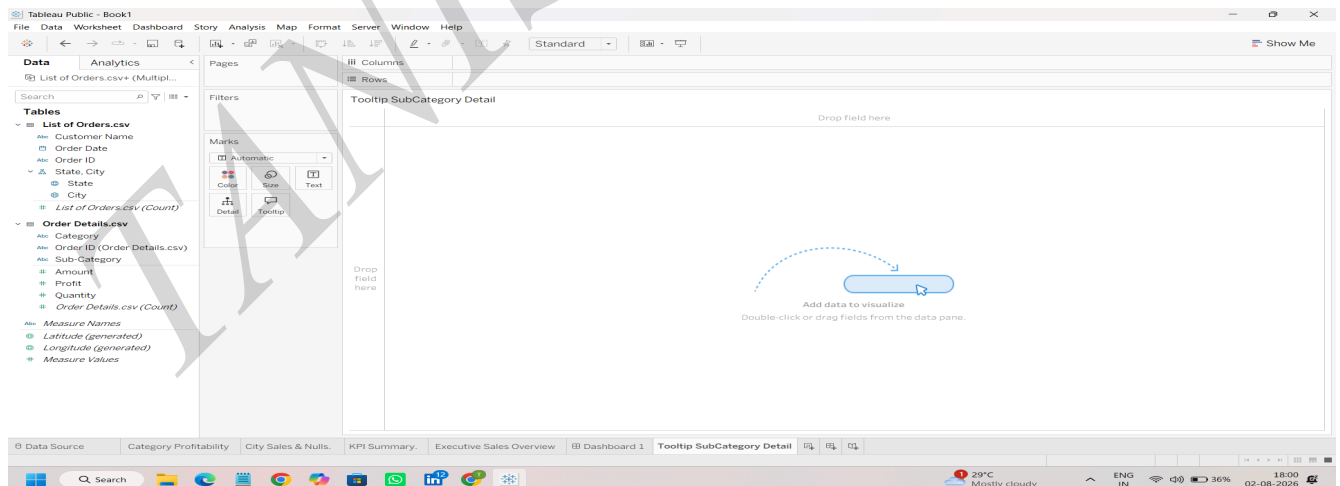

Subject:- Data Visualization With Power BI And Tableau Practical no 6

Step 4:- Move your mouse cursor over any bar in the Category Profitability view. Confirm that the popup reads as a clean, formatted sentence displaying exact sales, order counts, and net profit for that category!

E] Implement "Viz in Tooltip"

Step 1:- Click the New Worksheet icon at the bottom of the screen and name it: Tooltip SubCategory Detail.

Step 2:- From the Data Pane, drag Sub-Category to the Rows shelf. Drag Profit to the Columns shelf. Drag Profit to the Color card on the Marks card to give it visual context.

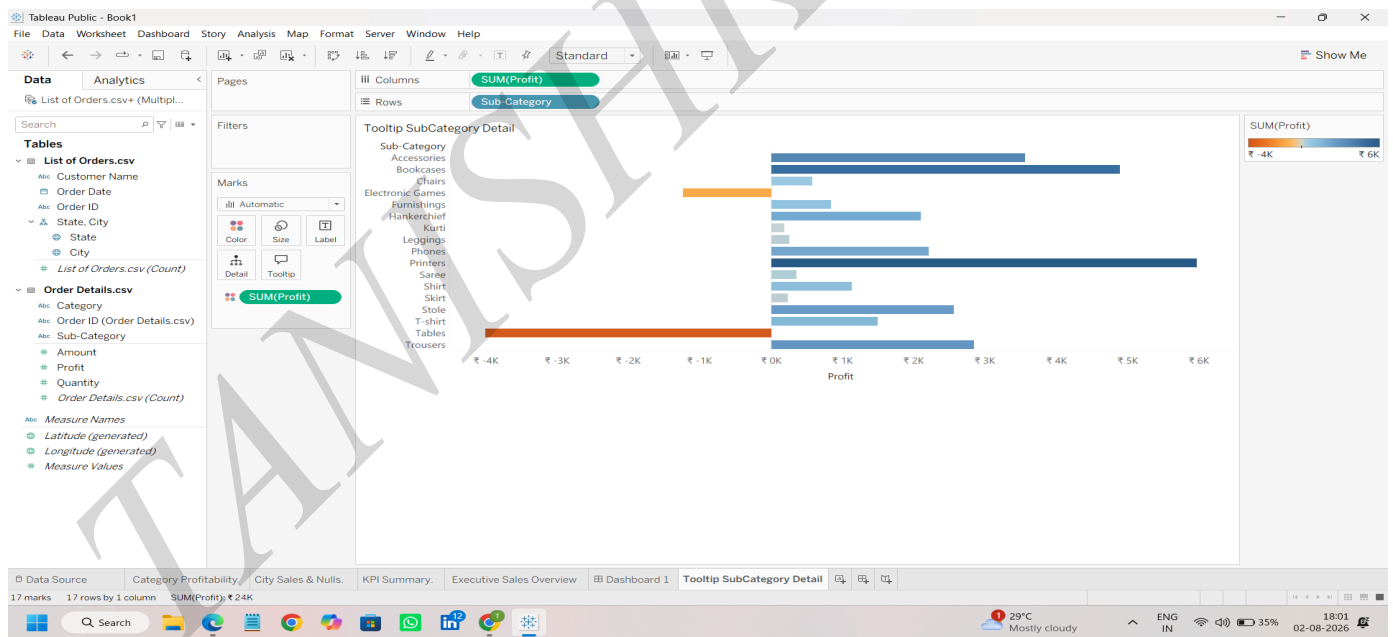

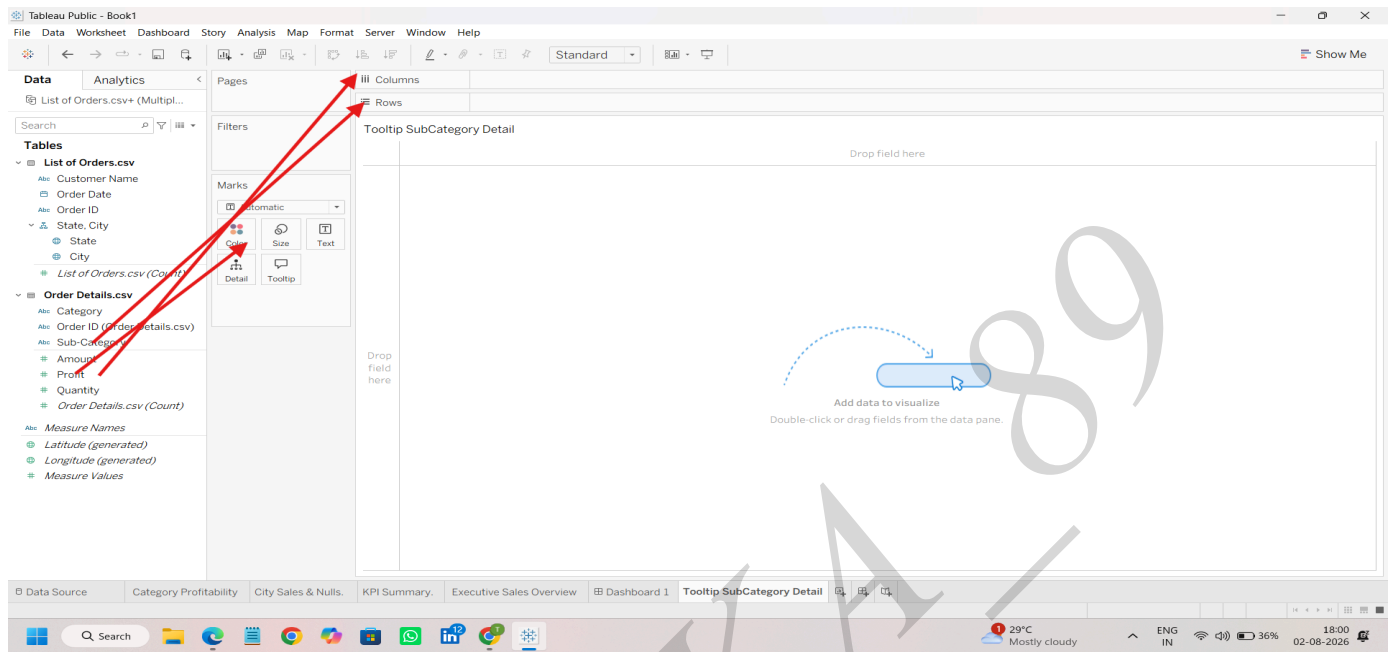

NAME : TANISHKA KUTWAL

ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

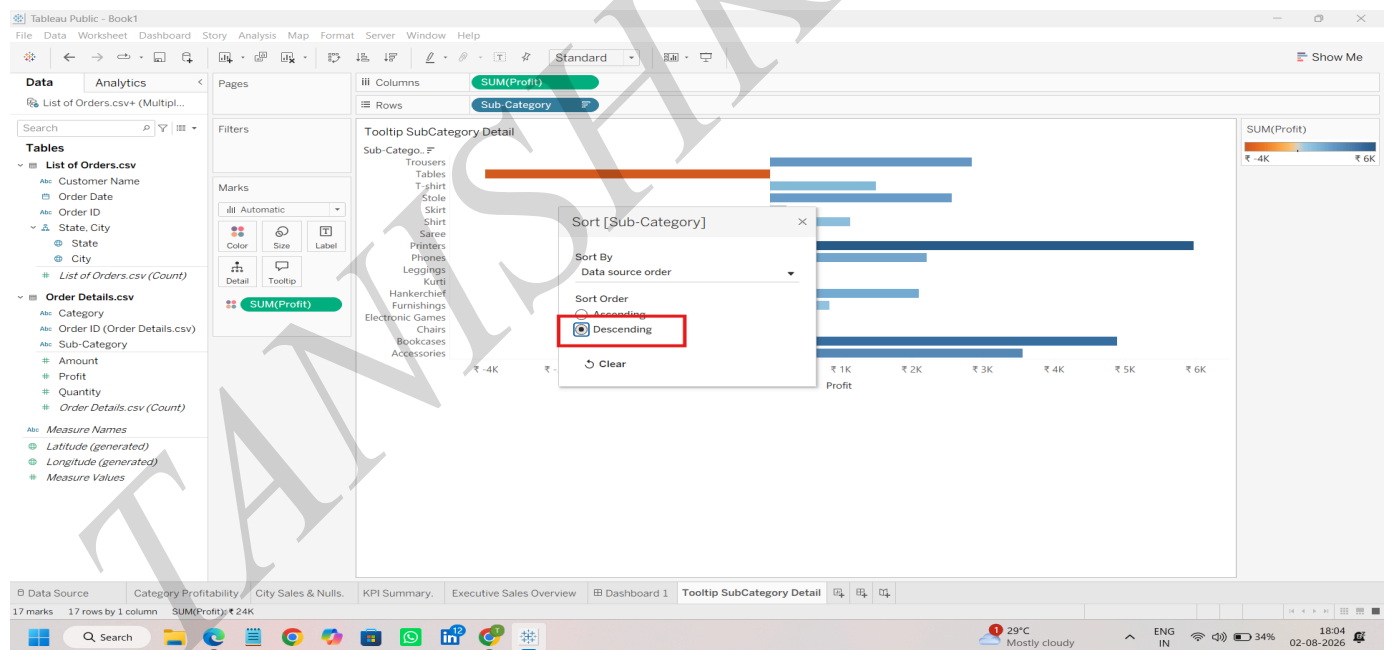

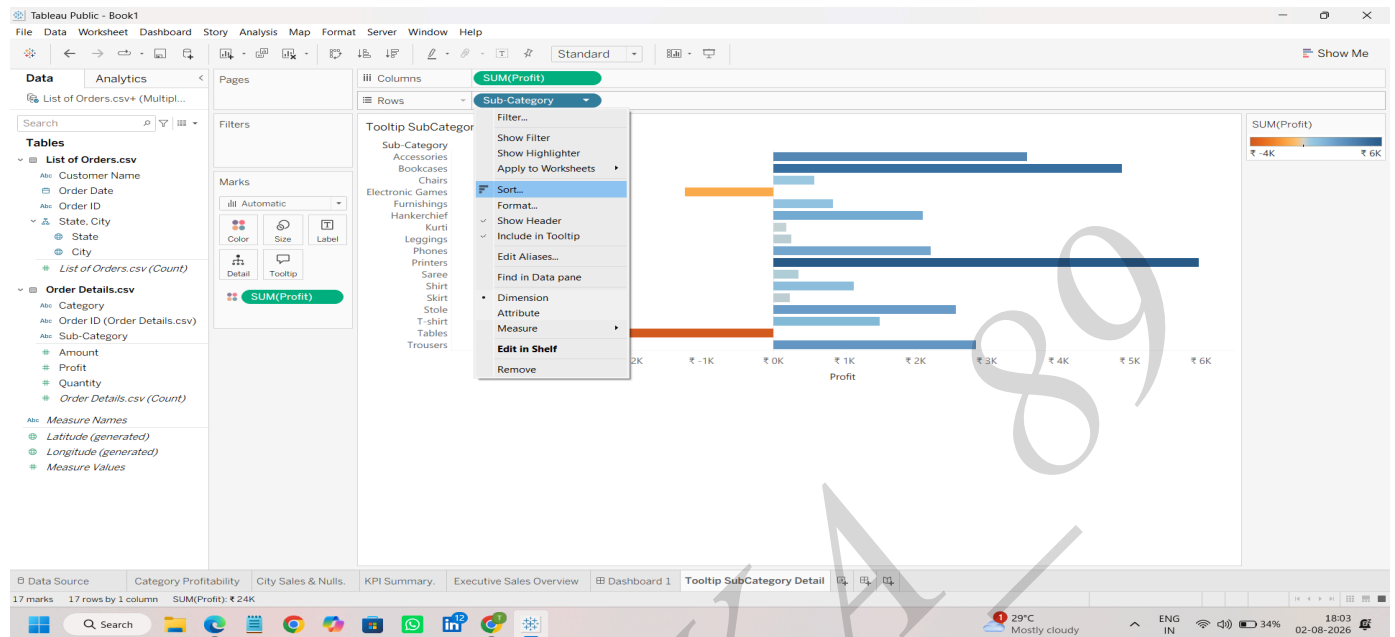

Step 3:- Sort the bars: Click the Sort Descending button on the top toolbar (or right-click Sub Category on Rows Sort Nested by Profit Descending

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

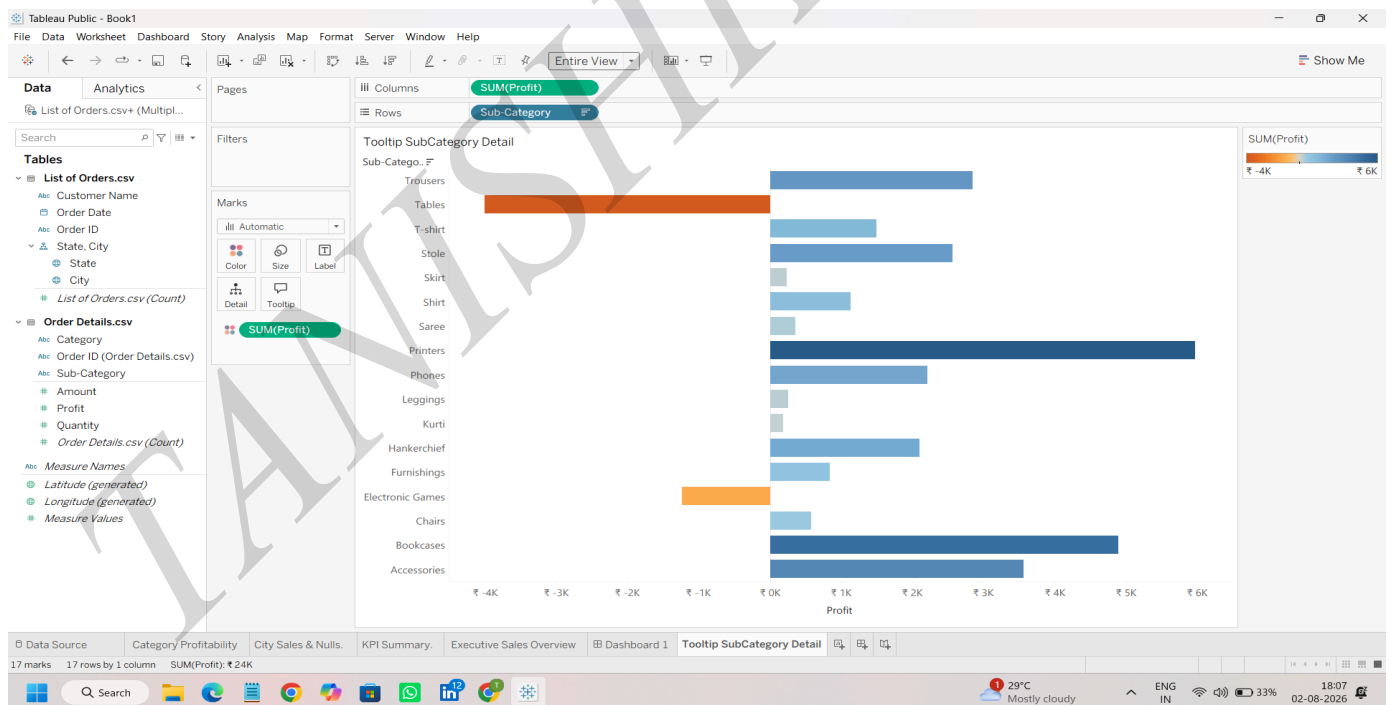

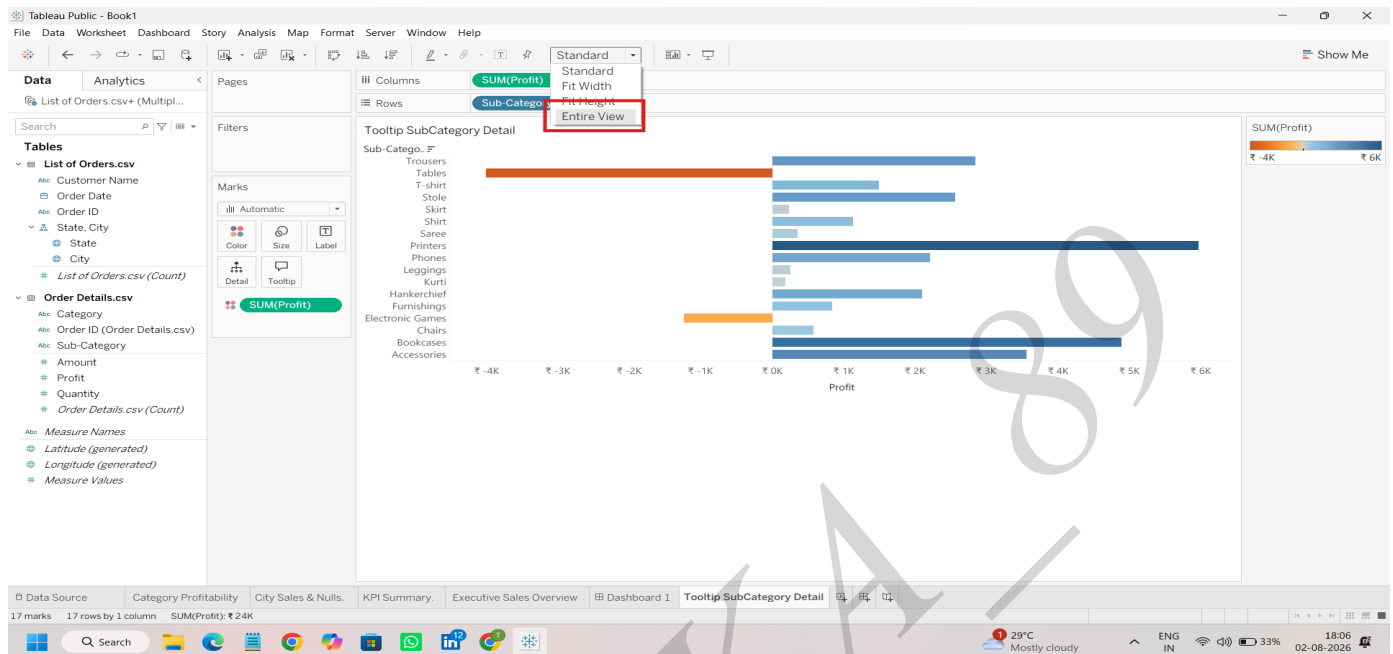

Step 4:- Keep the sheet compact: In the top toolbar, change the view fit drop-down from Standard to Entire View.

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 5:- Click on your primary worksheet tab at the bottom: Category Profitability. On the Marks card, click the Tooltip card to open the Edit Tooltip window. Place your cursor at the very bottom of your existing sentence-based text and press Enter to start a new line

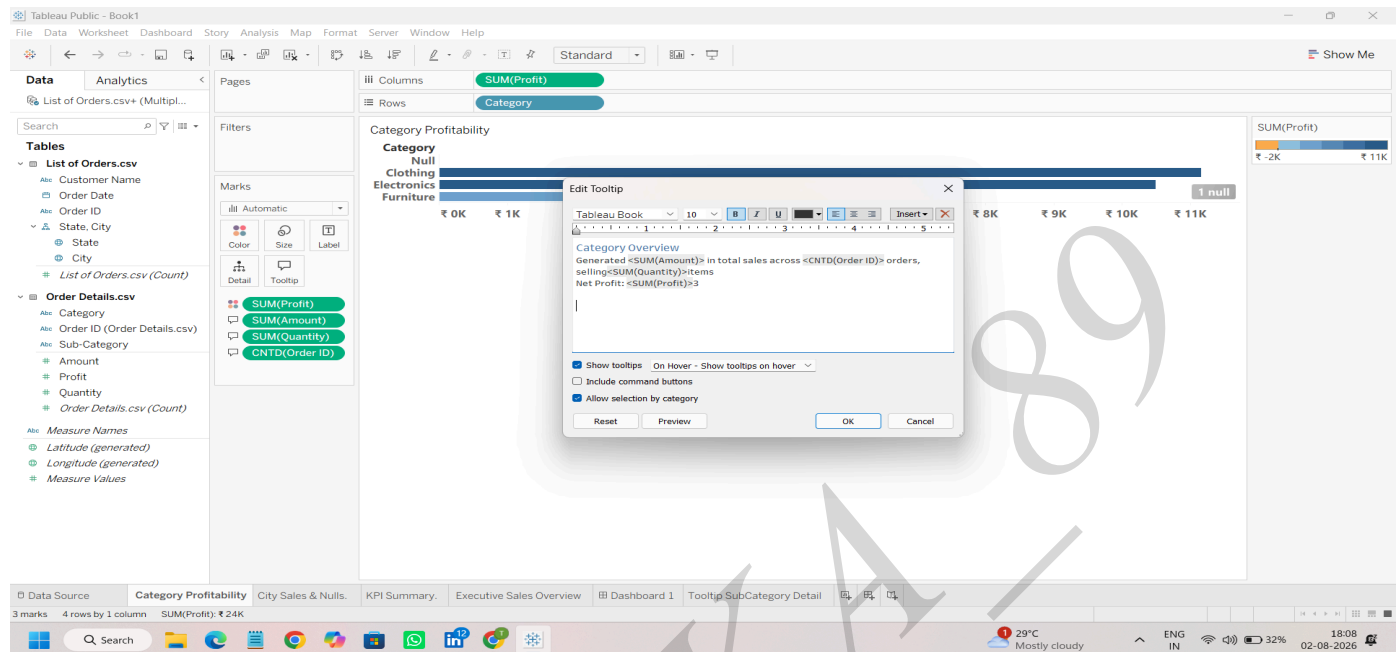

NAME : TANISHKA KUTWAL

ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

In the top right corner of the Edit Tooltip window, click the Insert drop-down menu. Hover over Sheets, then click Tooltip SubCategory Detail. Tableau will insert a tag that looks like this:

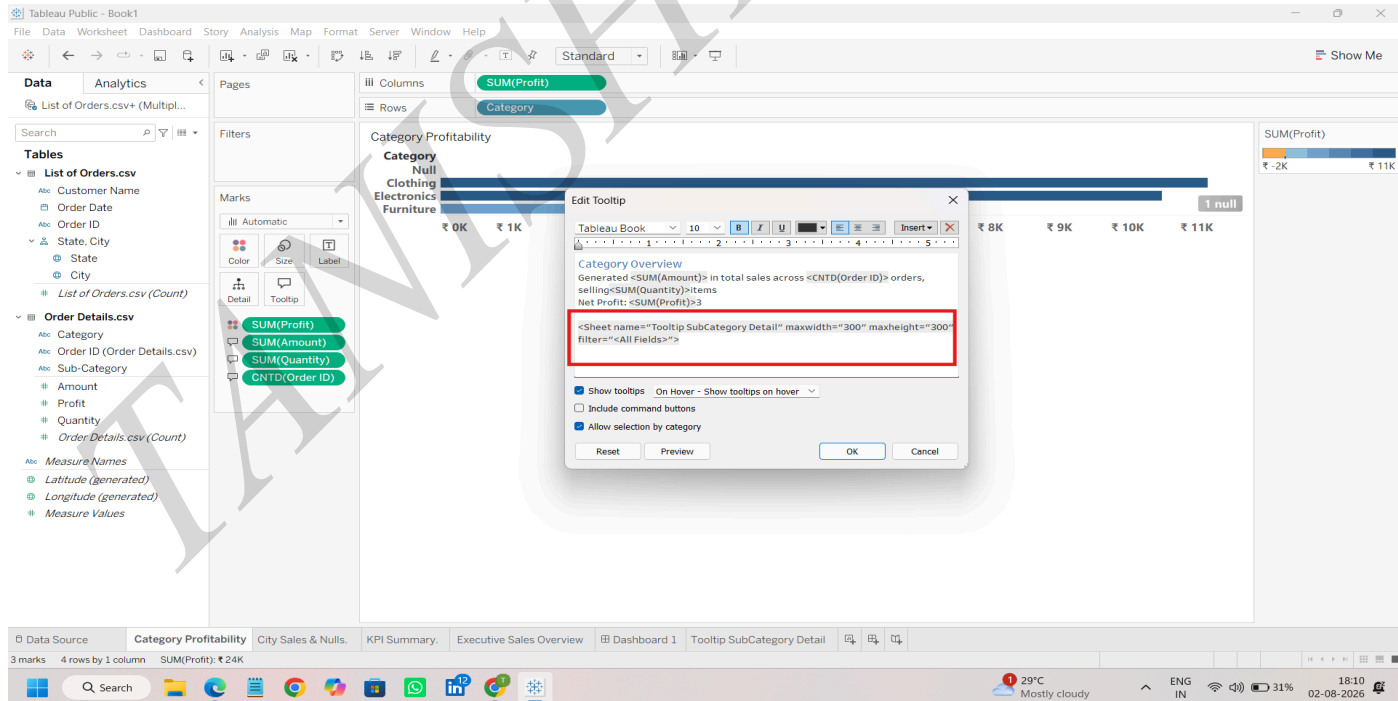

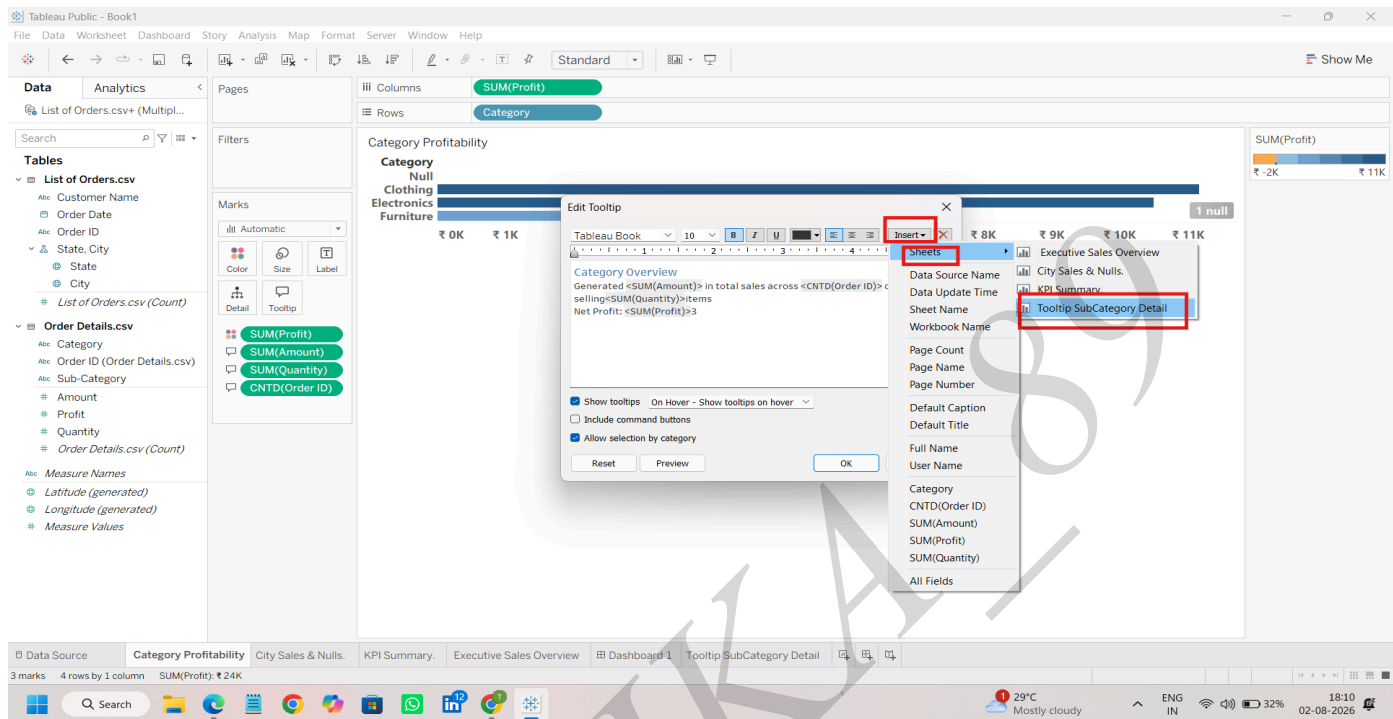

<Sheet name="Tooltip SubCategory Detail" maxwidth="400"
maxheight="200" filter="<All Fields>">

NAME : TANISHKA KUTWAL
ROLL NO: T089

Subject:- Data Visualization With Power BI And Tableau
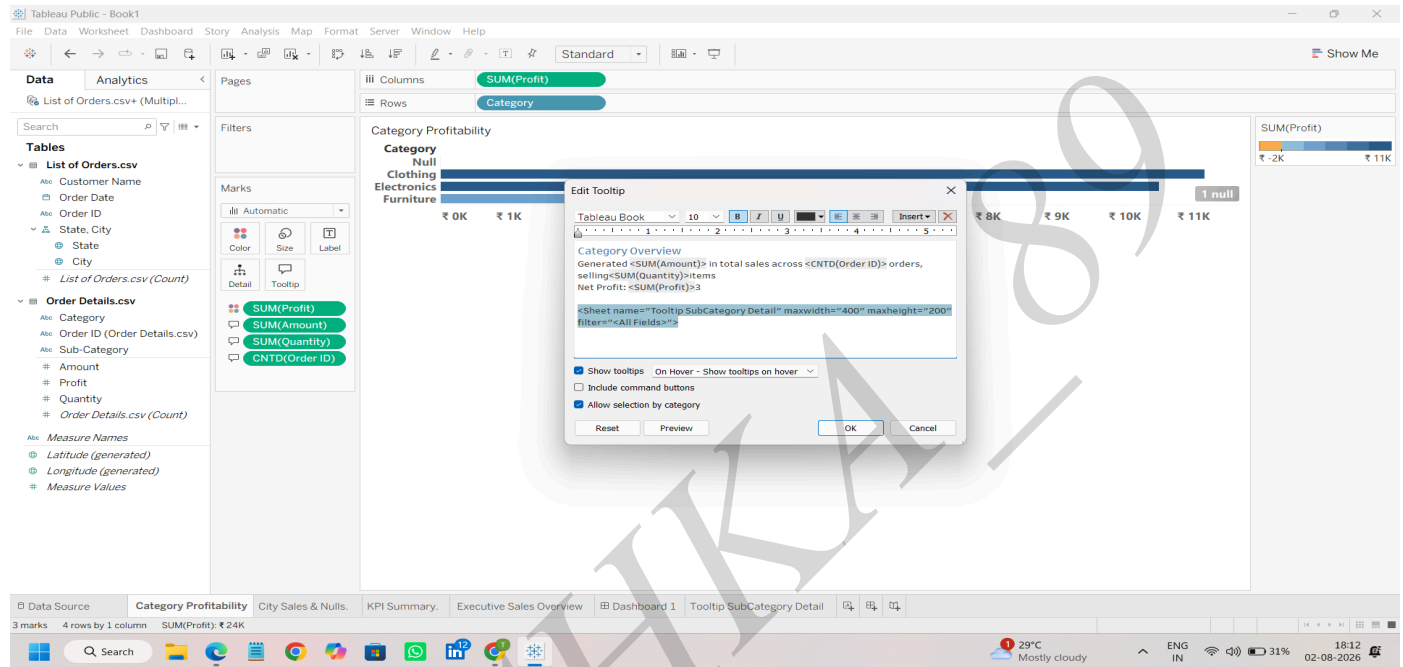

Practical no 6

Adjust the dimensions inside the tag if needed: Change maxwidth="300" to maxwidth="400". Change maxheight="150" to maxheight="200 And Click OK

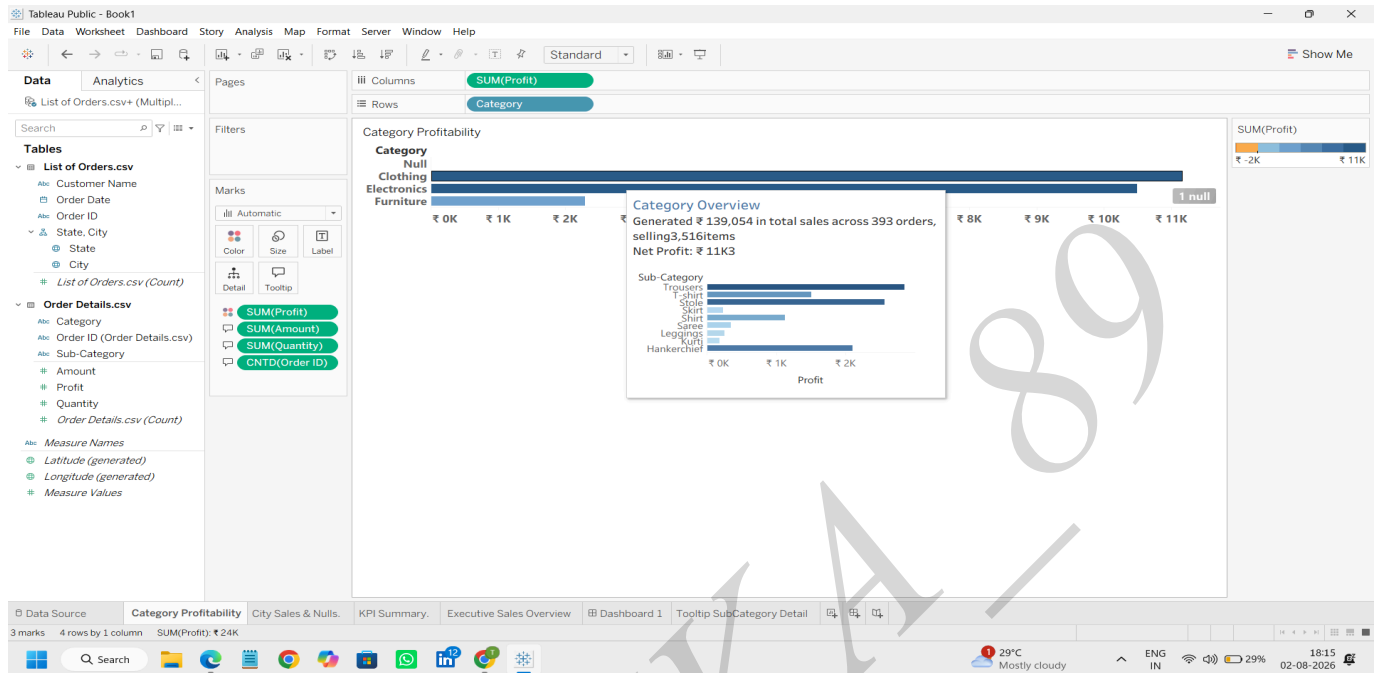

Step 6:- Hover your mouse over one of the main bars (e.g., the Clothing or Furniture category bar) in your Category Profitability worksheet. Observe the tooltip popup:- It will show your sentence-based overview from Part D. Directly below the sentence, it will display a mini horizontal bar chart listing only the sub-categories that belong to that specific hovered category!

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

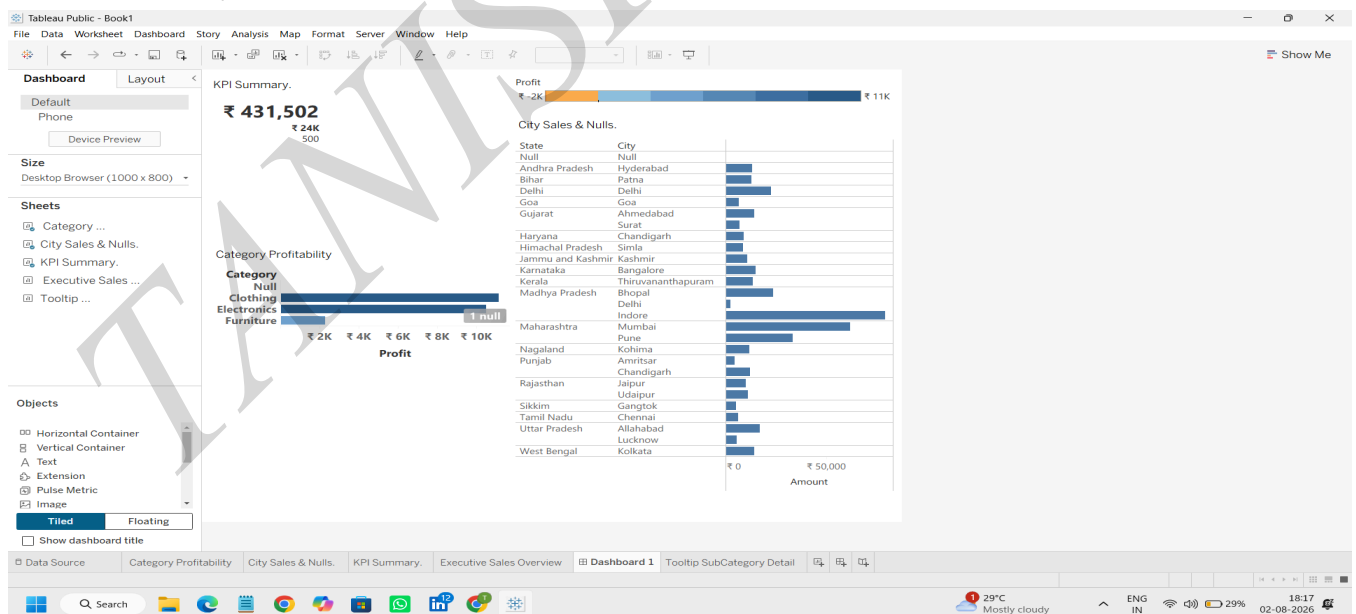

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

F] Improve Readability and User Experience

Step 1:- Switch to your Executive Sales Overview dashboard tab. Click on the KPI Summary container/sheet to select it.

Step 2:- In the left-hand panel, click the Layout tab (next to the Dashboard tab). Look for the Outer Padding and Inner Padding settings by scrolling:

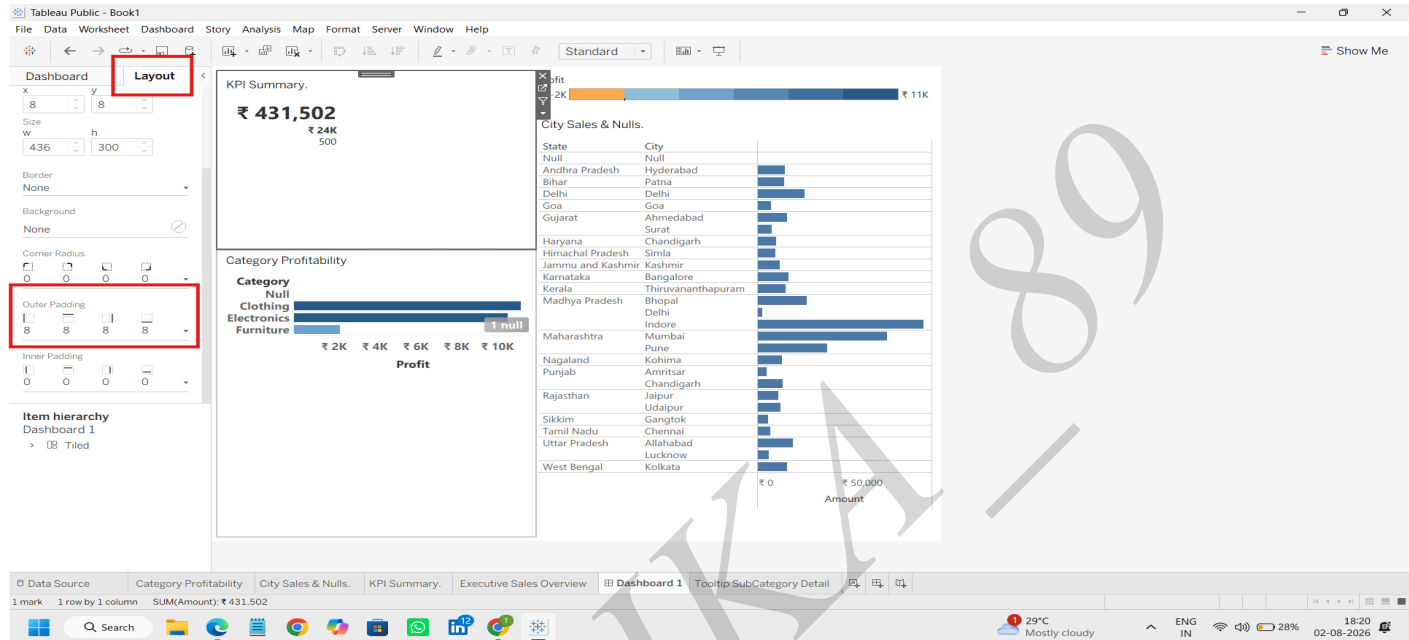

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

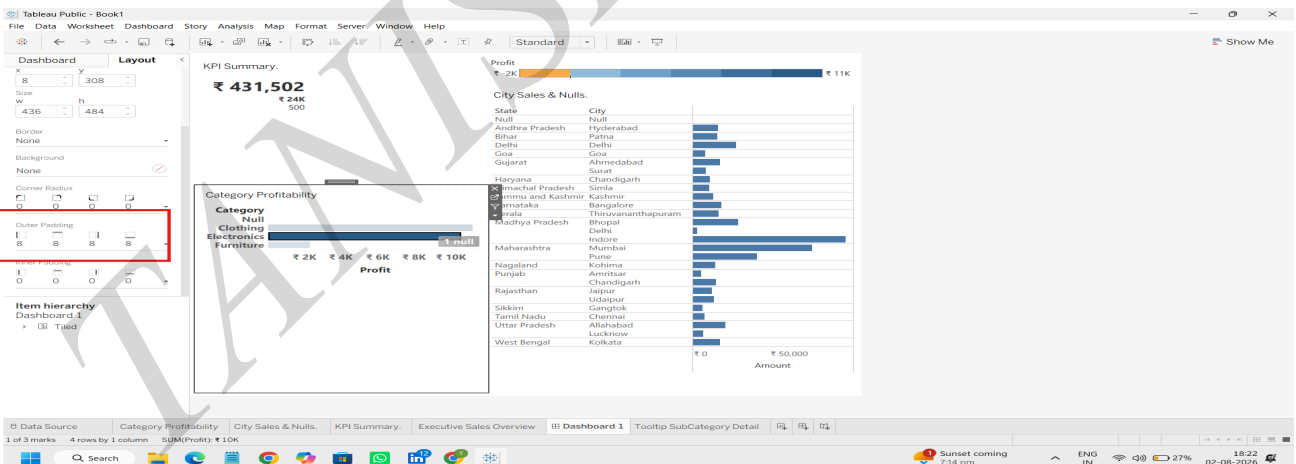

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Click the lock icon to unlock all sides if needed. Adjust Outer Padding to 8 px on all sides to give space between the visual cards.

Step 3:- Click on the Category Profitability sheet and apply an Outer Padding of 8 px.

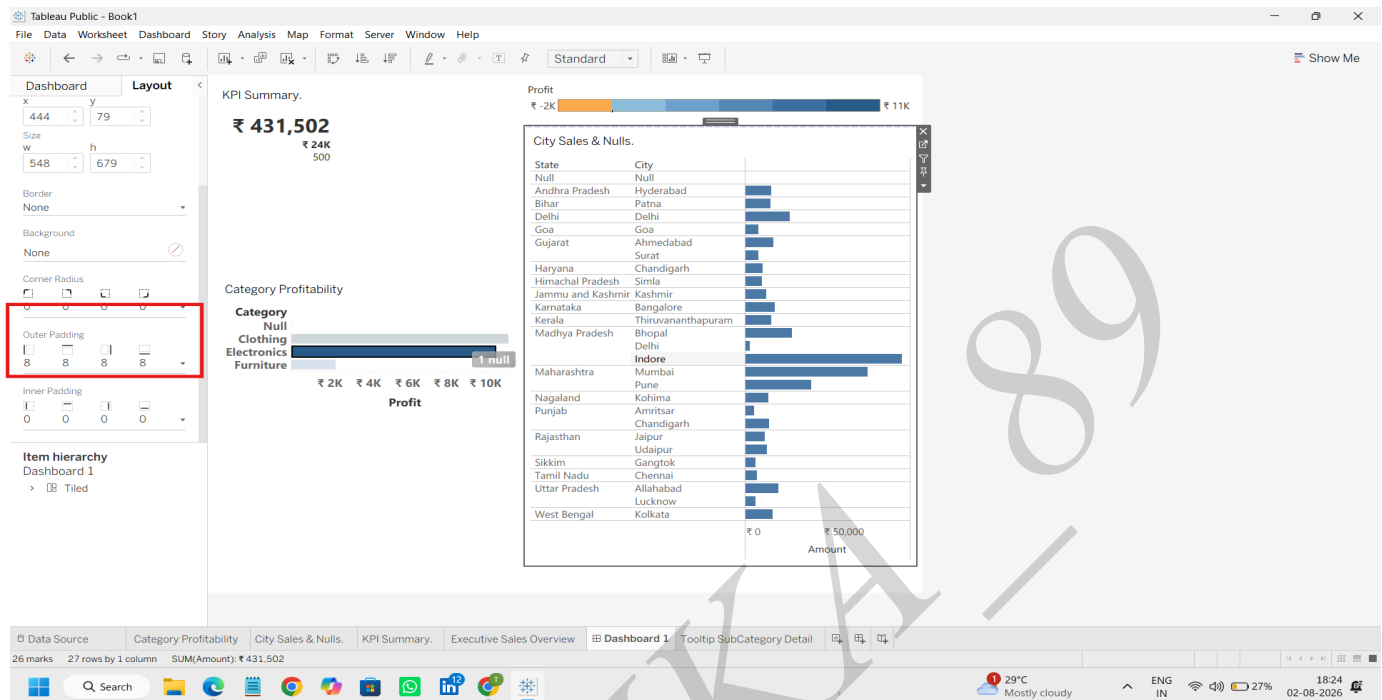

Step 4:- Repeat for City Sales & Nulls.

NAME : TANISHKA KUTWAL
ROLL NO: T089

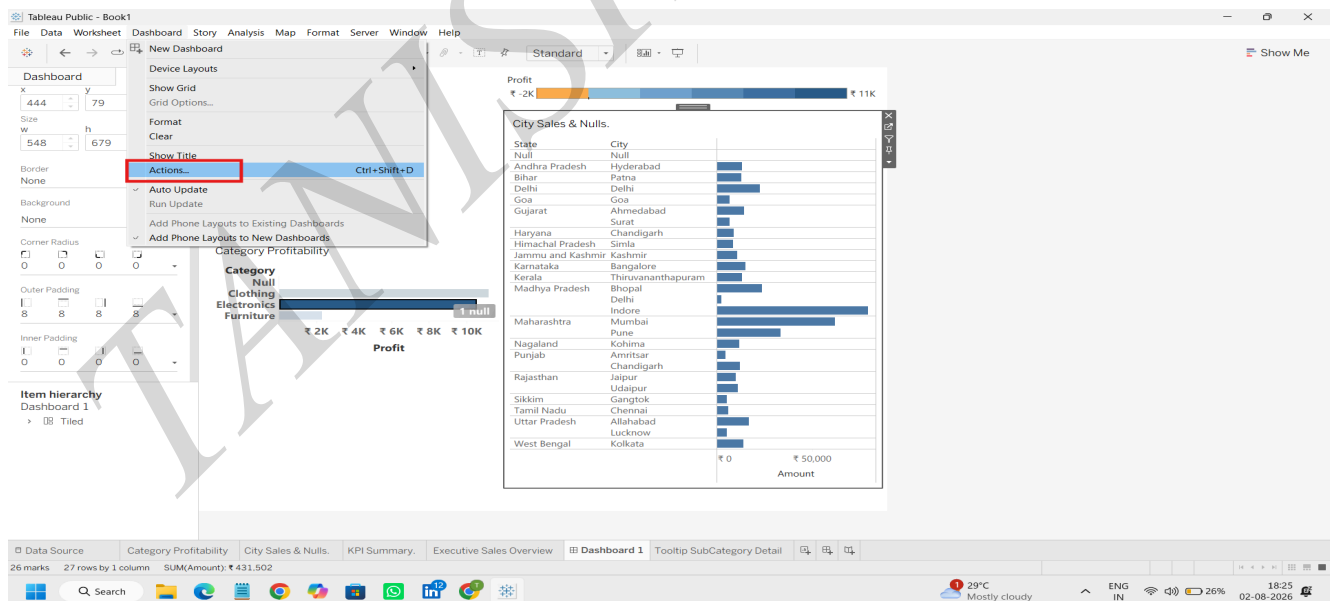

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 5:- On the top menu bar, go to Dashboard Actions... Click Add Action > at the bottom left and select Highlight...

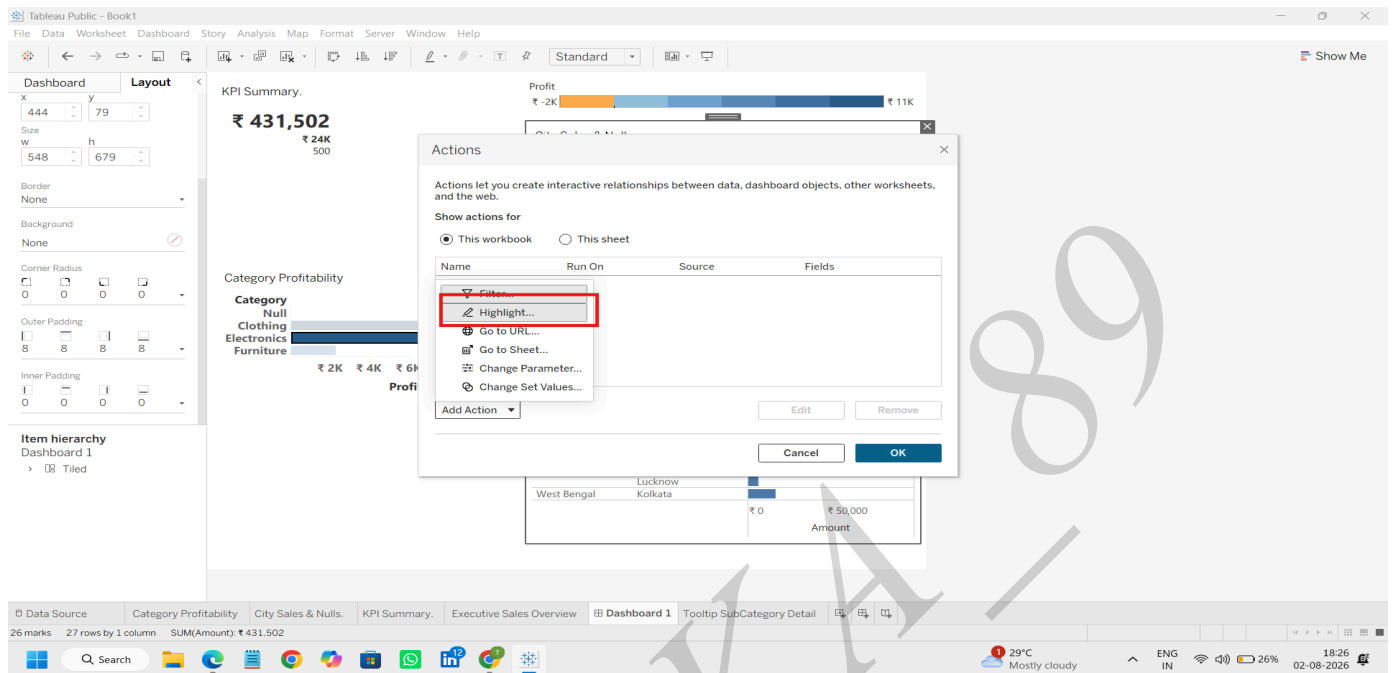

NAME : TANISHKA KUTWAL
ROLL NO: T089

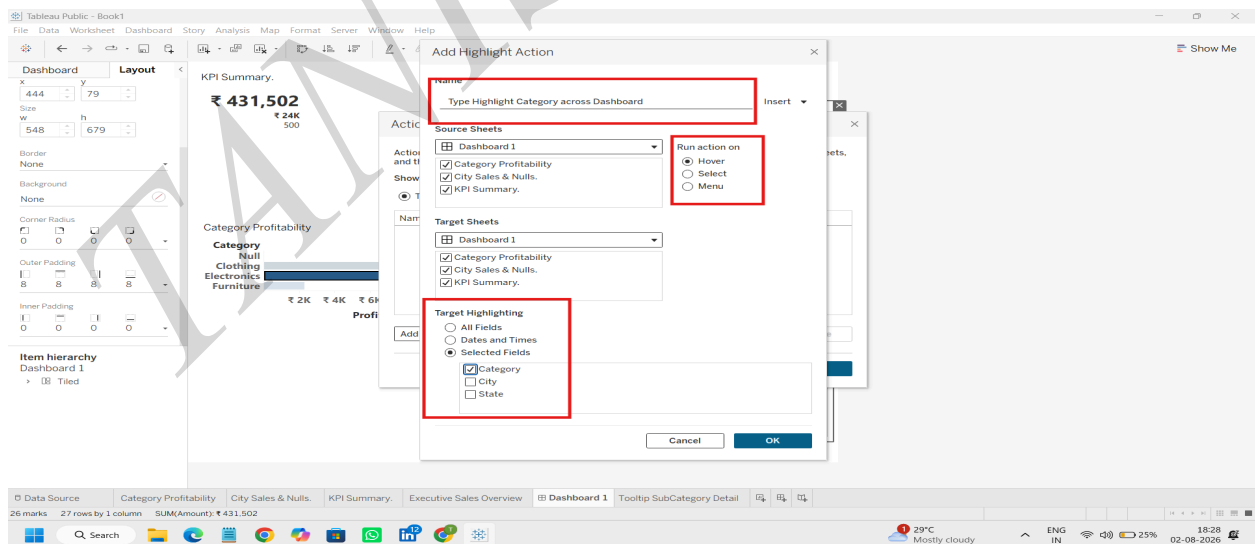

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 6:- In the Add Highlight Action window: Name: Type Highlight Category across Dashboard. Source Sheets: Select your dashboard name (Executive Sales Overview). Target Sheets: Check all worksheets listed under your dashboard. Run action on: Select Hover. Target Fields: Select Selected Fields Click Category.

Step 7:- Look at the right sidebar of your dashboard where color legends appear automatically. Select any redundant or repetitive legend boxes (e.g., if

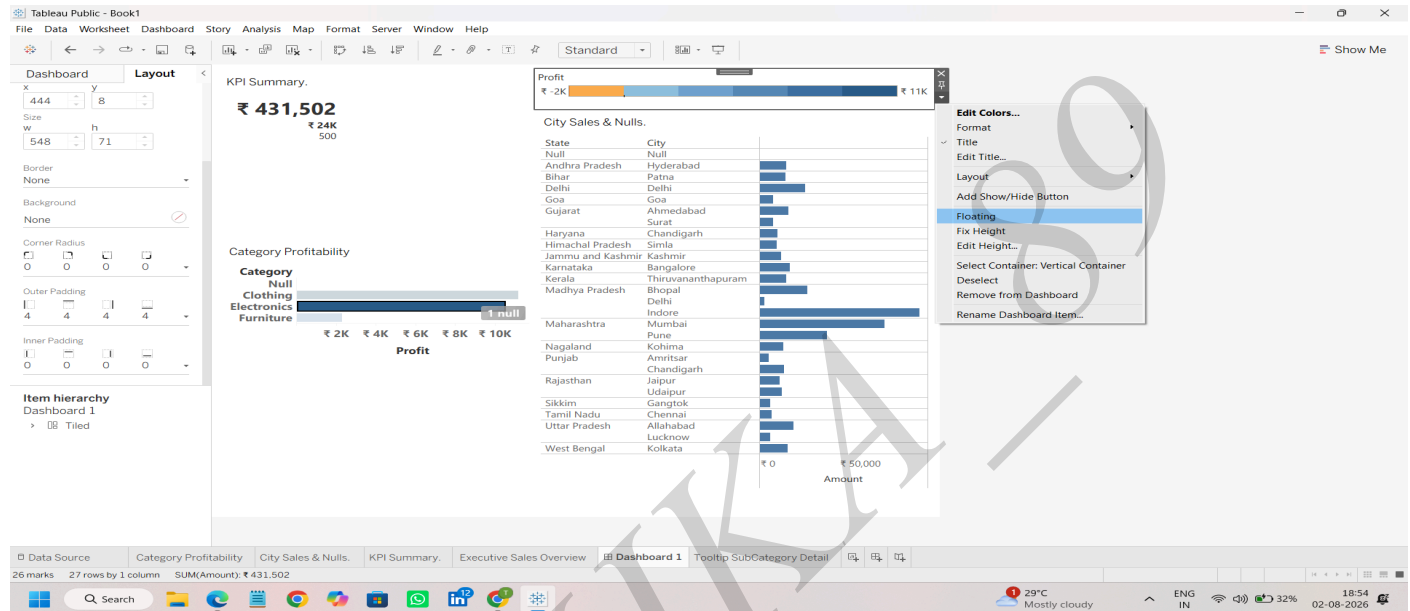

NAME : TANISHKA KUTWAL

ROLL NO: T089

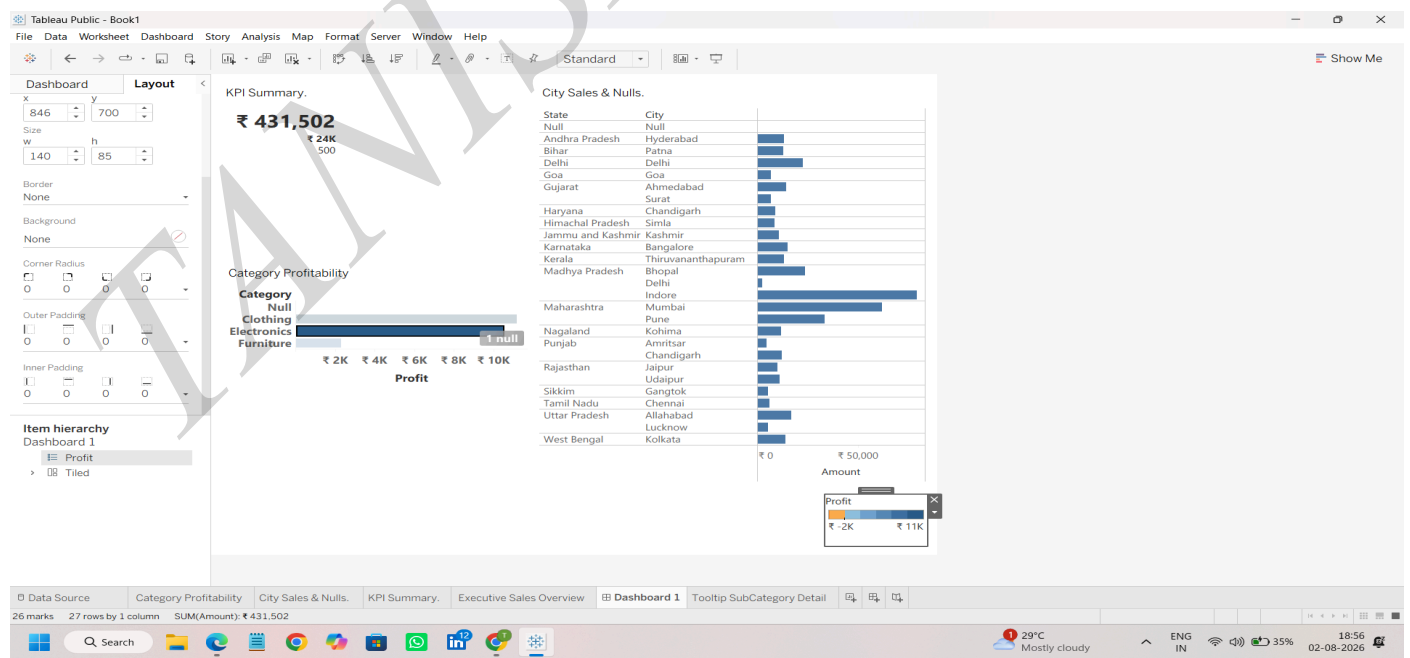

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau Practical no 6

Profit color legend is self explanatory). Click the X in the top right corner of the legend box to remove it, or convert critical legends into floating elements: Click the down arrow on the legend container box select Floating.

Drag and position it neatly near the relevant chart so it doesn't take up full column width.

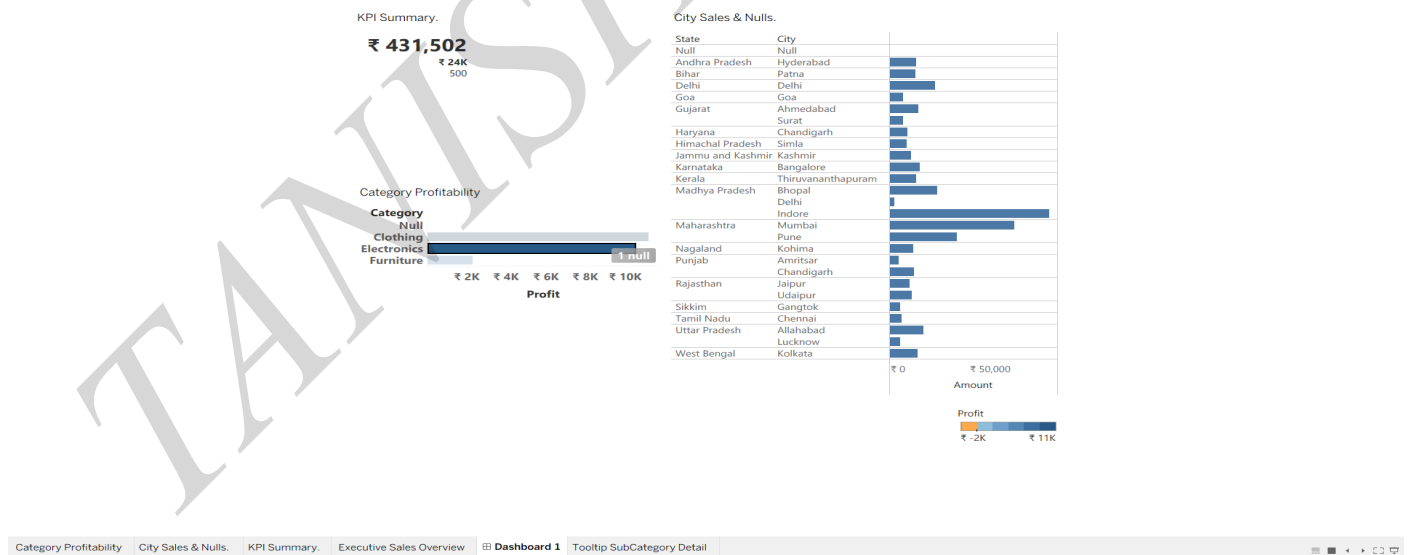

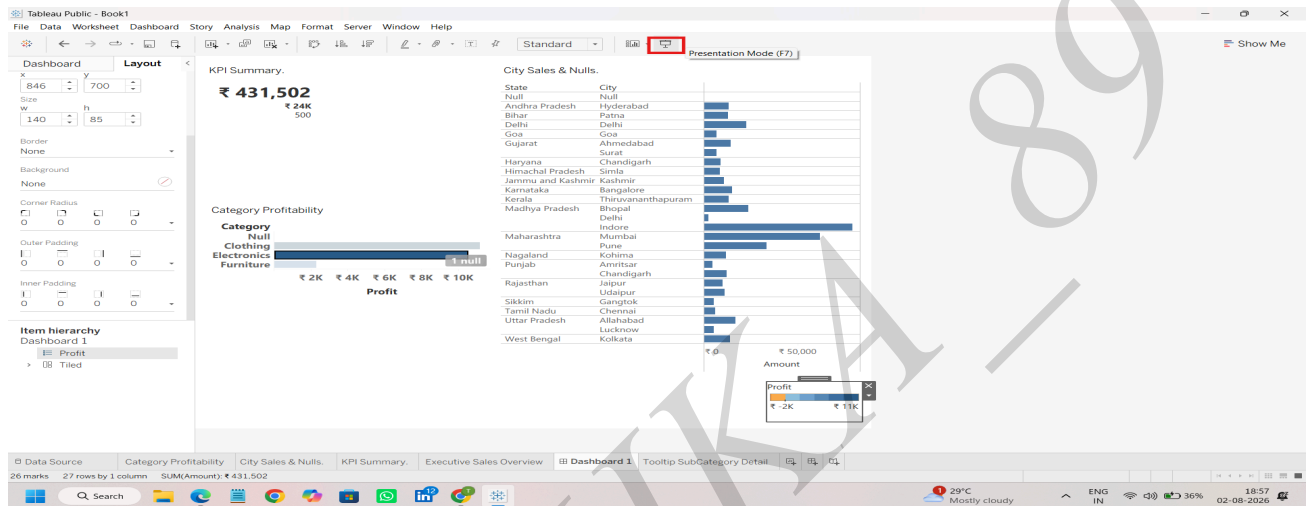

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau Practical no 6

Step 8:- At the bottom right of the screen (or in the top menu under Window), click Presentation Mode (or press F5). 2. Verify: Fonts are clean and consistent. Numbers display proper ₹ symbols with no awkward Null labels. Tooltips trigger seamlessly on hover with embedded sub-category breakdown charts. Highlighting functions smoothly across sheets.

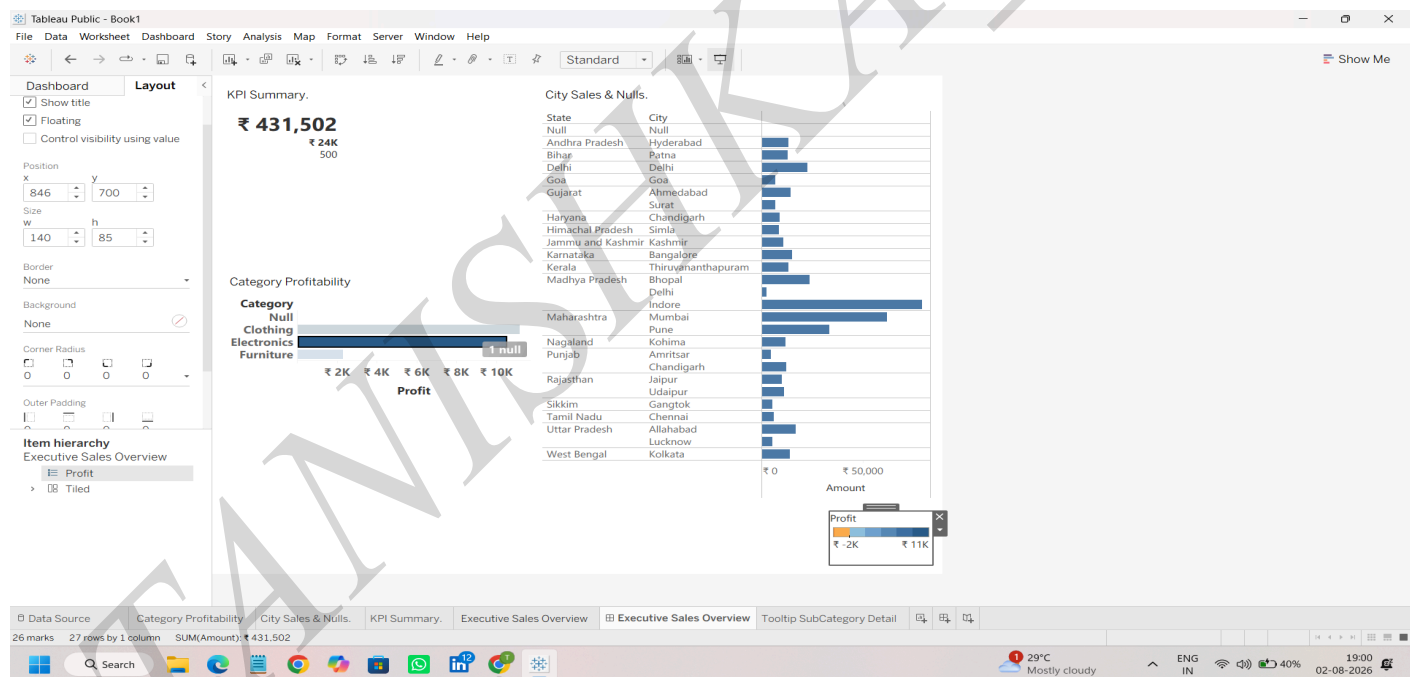

G] Apply Best Practices for Visual Storytelling

NAME : TANISHKA KUTWAL
ROLL NO: T089

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau Practical no 6

Step 1:- Switch to your Executive Sales Overview dashboard tab. Verify or adjust the sheet placement using a top-to-bottom reading path: Top Left: KPI Summary (Immediate baseline metrics: Total Sales, Total Profit, Orders). Middle Section: Category Profitability (Core narrative question: Which product categories drive or drag our profit?). Bottom/Right Section: City Sales & Nulls (Granular regional breakdown answering: Where are these sales geographically located?).

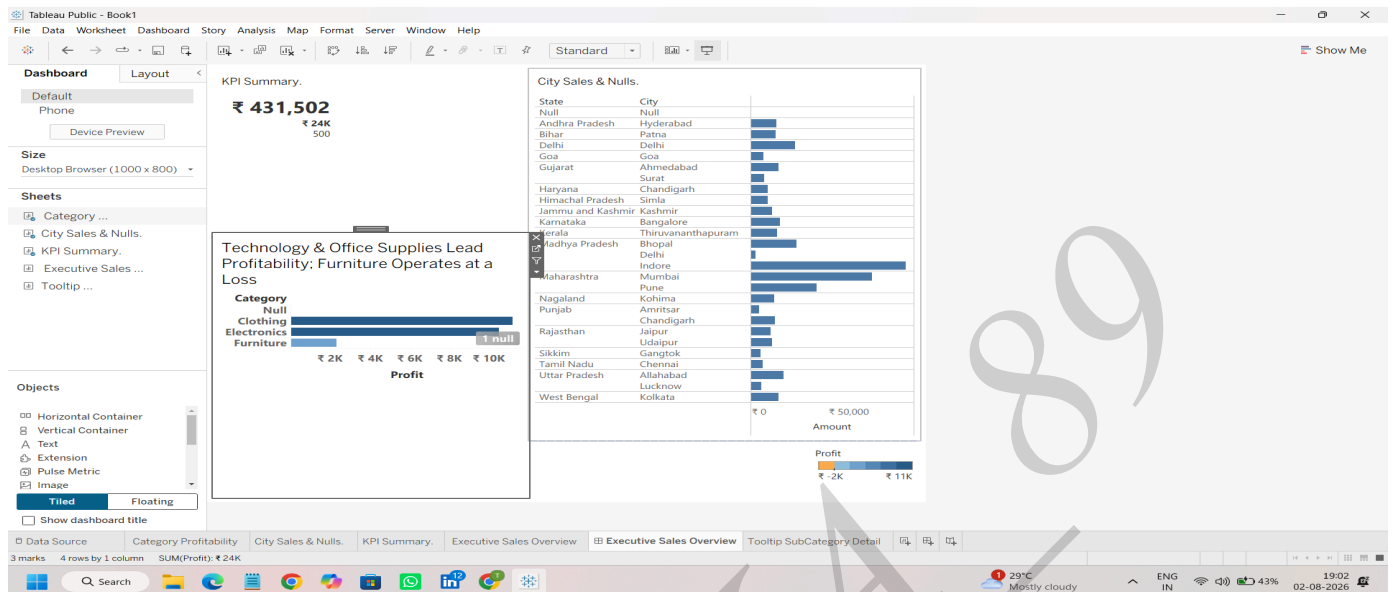

Step 2:- Double-click the title block of Category Profitability on your dashboard. Edit the title text to be insight-driven: o Change from: Category Profitability Change to: Technology & Office Supplies Lead Profitability; Furniture Operates at a Loss

NAME : TANISHKA KUTWAL
ROLL NO: T089

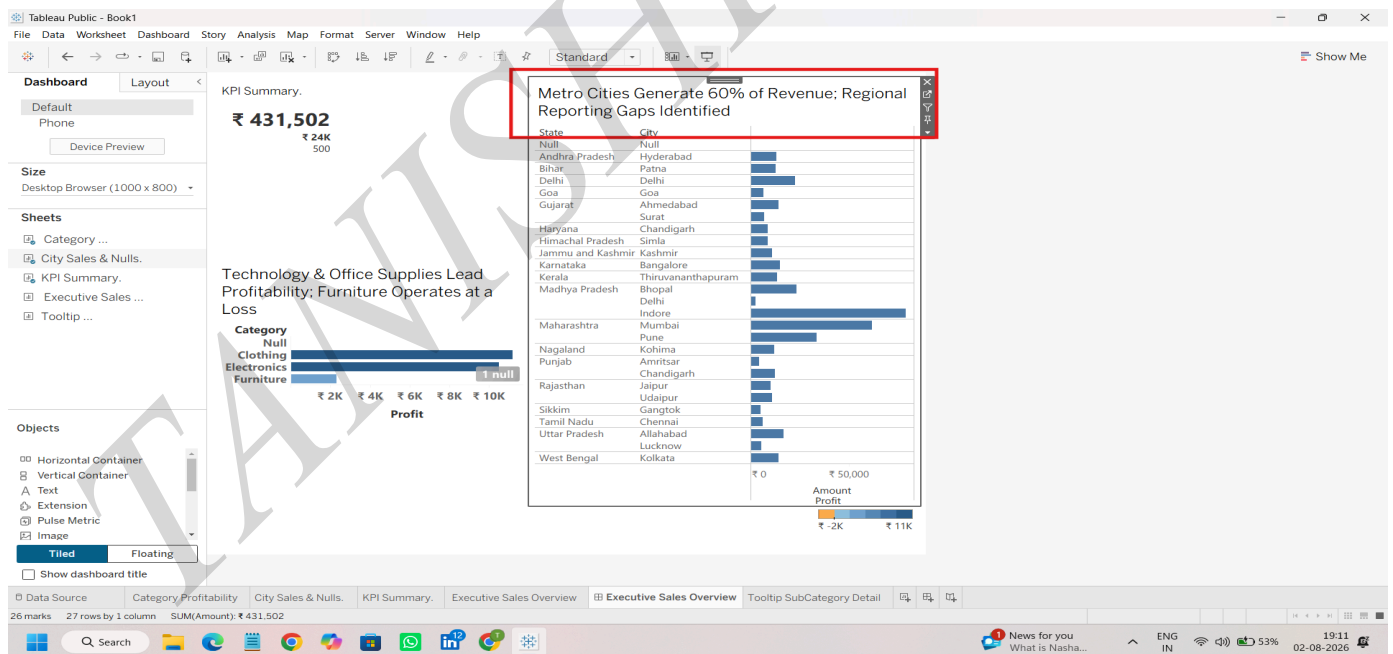

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 3:- Double-click the title block of City Sales & Nulls. 4. Edit the title text:
o Change from: City Sales & Nulls Change to: Top Metro Cities Generate 60% of Revenue; Regional Reporting Gaps Identified

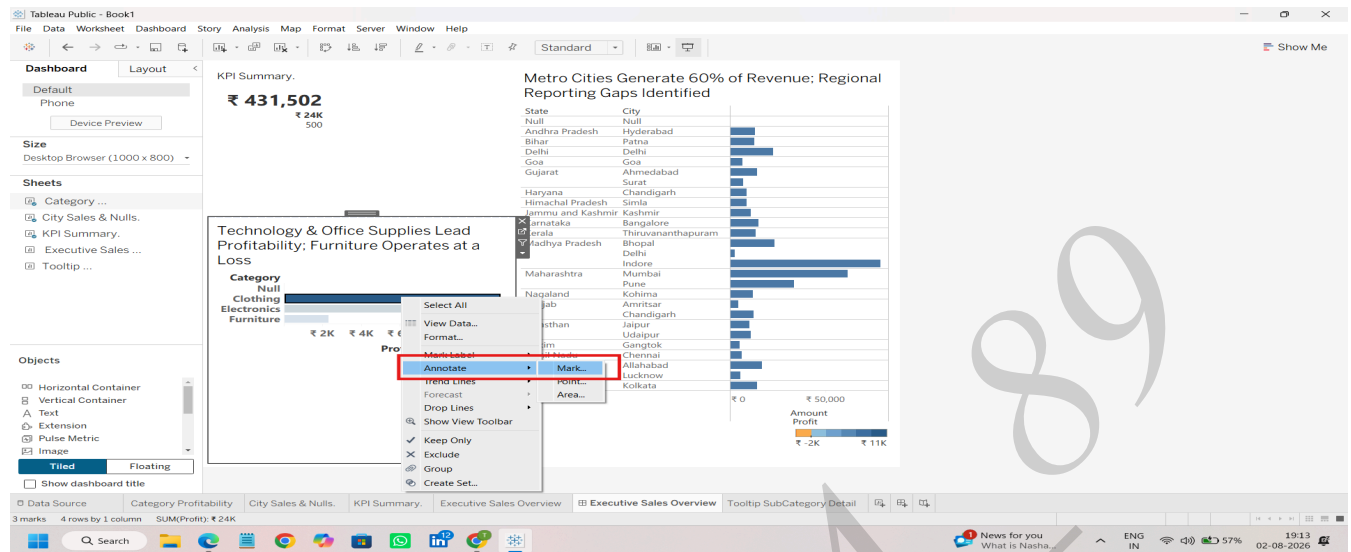

Step 4:- Right-click on the bar with the lowest profit (or highest loss) in your Category Profitability sheet.

NAME : TANISHKA KUTWAL
ROLL NO: T089

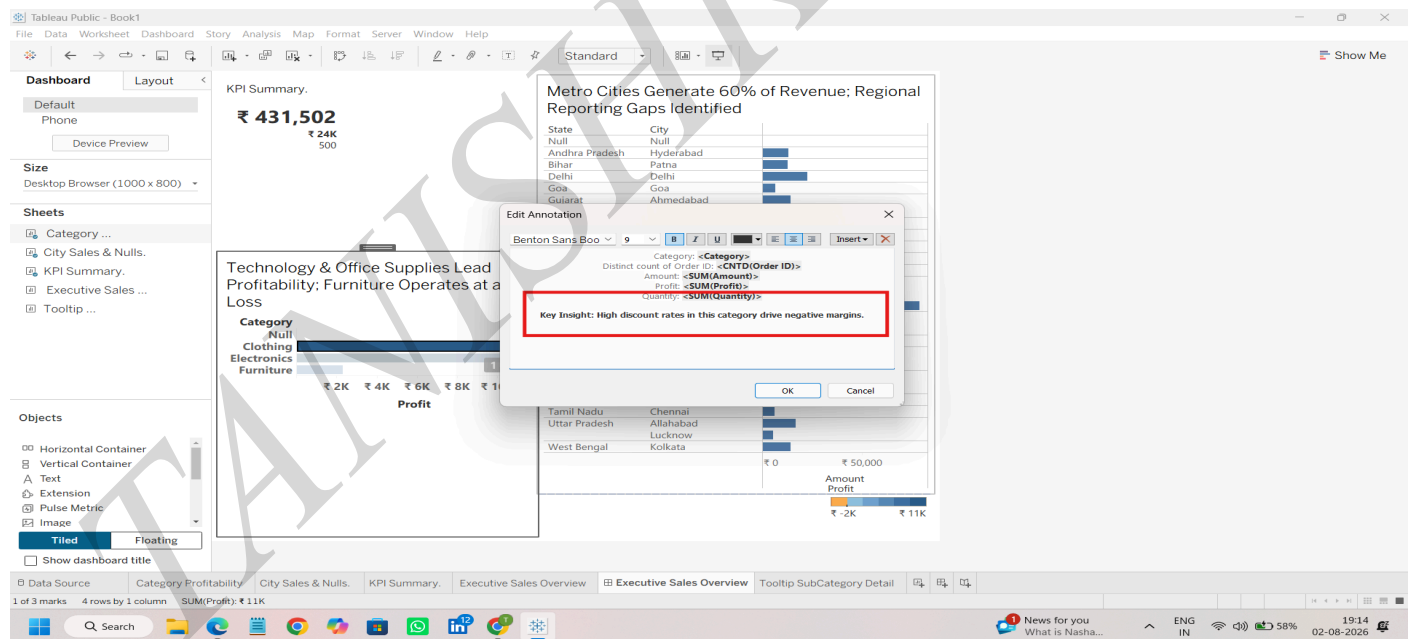

Sheth L.U.J. And Sir M.V. College

Subject:- Data Visualization With Power BI And Tableau

Practical no 6

Step 5:- In the annotation window, write a brief explanatory callout: Key Insight: High discount rates in this category drive negative margins. Format the text to 9pt, Dark Gray, Bold, then click OK.

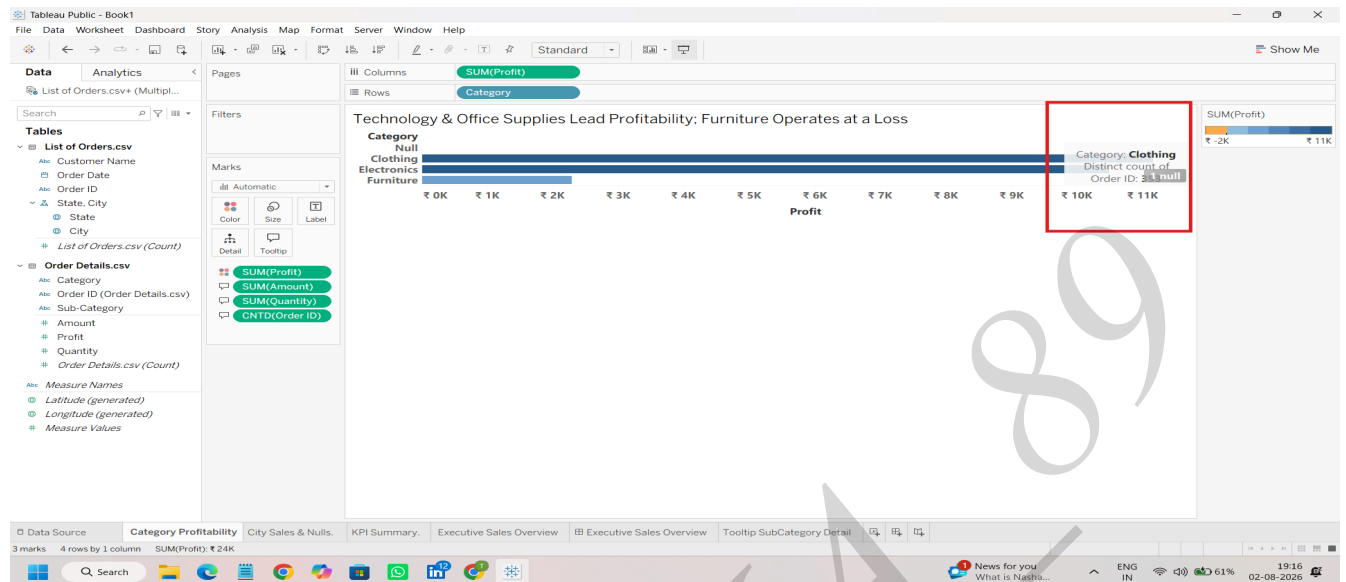

Step 6:- Drag the line callout box so it sits cleanly above or next to the bar without overlapping neighboring data.

NAME : TANISHKA KUTWAL
